WILLIS MURDER CASE IN HANDS OF JURY TODAY

STEAMSHIPS ABANDON SEARCH FOR OLD GLORY'S LOST CREW;

CARLING SPEEDS OVER OCEAN

Physician Uses Airplane To Reach Youth Held in Seattle as Matricide Suspect.

ALLEGED SLAYER ADMITS IDENTITY

Defense Has Not Yet Decided Whether Fight Will Be Made To Prevent Extradition.

Seattle, Wash., September 7.—(AP)—Dr. H. C. Hill, father of Harry H. Hill, 22-year-old Streator, Ills., matricide suspect, arrived here late today by airplane from Portland, Oregon. The elder Hill declined to discuss whether his son would waive extradition until he had conferred with his attorneys.

A new angle in the case was revealed when police disclosed they had questioned Hill about his relations with Robert L. Honeycutt, with whom he was reported to have lived in a Streator hotel until two days after his mother's supposed murder. Hill emphatically denied knowing Honeycutt or that he had lived at the hotel.

Hill has been steadfast in his denials that he had anything to do with his mother's death. When he was arrested here by chance Saturday night for questioning in connection with a car he had sold, he said he was Harry H. Hill and that he had fled his home town "to let things cool off."

Gives Detailed Account.

He gave a detailed account of his movements before and after the supposed murder, and authorities have not been able to wring from him any deviation from his story.

Harry Hill today tacitly admitted his identity as the suspect wanted in Streator, Ill., for the murder of his mother and tonight awaited the outcome of a legal fight to resist his hasty extradition to the Illinois town to stand trial.

Attorneys for young Hill were instructed by his father, Dr. H. C. Hill, wealthy Streator physician, while he was en route here by airplane, to place "every legal obstacle" in the way of his immediate transfer to Illinois. They filed an application for a writ of habeas corpus, contending the prisoner was held without due warrant of law. The writ is returnable Friday.

Removes All Doubt.

In signing the writ, the suspect gave his true name of Harry H. Hill. Officers regarded this action and Hill's own admission of his identity when he was greeted by officers from Illinois today as removing all doubt as to whether he was the real Harry H. Hill wanted in Streator.

Defense attorneys had suggested two days ago the possibility that they might contend he was not the person sought. Hill was arrested here last Saturday night under the name of H. Jackson.

Counsel for Hill resorted to the habeas corpus procedure as soon as they found that extradition papers, reported to have been rushed by air-mail from Illinois, had not arrived.

Papers Not Ready.

Illinois officers, Chief of Police William Robb, Sheriff Floyd S. Clark and Assistant State's Attorney Chester Jacobson, who came here this morning, were surprised by the non-arrival of the extradition paper, which they had believed would precede them.

They announced on their arrival they had "all the necessary legal authority" to take Hill home for trial, but later were forced to admit they could not act without the documents.

An extradition hearing has been set by Governor Hartley, of Washington, for tomorrow at Olympia, and the officers hope the papers will have arrived by that time.

Lives of Hundreds Are Endangered as Bullets Mow Down Man Armed With Knife.

OFFICERS SUSPECT ROBBERY ATTEMPT

Shooting Occurs in Chicago Near Armored Truck Belonging to Federal Reserve Bank.

Chicago, September 7.—(AP)—Hundreds of pedestrians at Dearborn street and Jackson boulevard were endangered when three policemen this afternoon shot and wounded three other men and killed an unidentified Mexican who had created a commotion by displaying a long knife at a taxi-stand in front of the Great Northern hotel, opposite the federal building.

An armored money truck belonging to the Chicago Federal Reserve bank was said to have been standing in front of the federal building, and first reports were that an effort had been made to rob it.

Victims of Stray Bullets.

The wounded men were victims of stray bullets fired by the policemen, who also sent leaden missiles crashing against iron mail chutes along Dearborn street, through windows of the federal building and into offices along Jackson boulevard.

F. L. Pierce, a federal prohibition officer, was leaving the federal building when a bullet hit his leg. D. E. McMahon, department store executive, and Joseph Nitkowski, mail carrier, were also wounded. None of the wounds was serious.

The Mexican was pursued a half block down Dearborn street and shot to death. Four bullets struck him. The Mexican first approached a cab standing with a request to be transported to North Chicago.

Knife Is Exposed.

"But I don't want to ride inside," he was said to have told E. A. Lee, the starter, "I want to ride out here." He indicated the running board, and reached to support himself by holding to the taxi's roof. His exertion exposed a knife, secreted in his coat sleeve.

Lee summoned a traffic policeman, who sought to search the Mexican. The latter attempted to slash the officer, who drew his pistol. The Mexican ran. The officer took up a pursuit, in which he was joined by two other policemen.

J. J. Hacker, the policeman who first questioned the Mexican, was slashed across the leg, but the wound was not serious.

The slain man's body bore only one mark of possible identification, a buckle, initialed "J. P.," with a Mexican flag.

Had Knife in Hand.

S. A. Baber, of Toledo, Ohio, said he saw the Mexican, 20 minutes before the shooting, riding on the running board of a taxicab with a knife in his hand. At Dearborn street he fell off. Baber said, and disappeared for a short time, following which he paced up and down the street, waving the knife. But no one paid any attention to him. Baber said he did not see the subsequent shooting.

Two money order receipts were found in the Mexican's pockets. Both had been sent to Guadalajara, Jalisco, Mexico.

RUMANIAN PRINCE PLANS TO CONTEST HIS FATHER'S WILL

Bucharest, Rumania, September 7.—(AP)—Prince Carol, one-time crown prince of Rumania but now living in virtual exile, wants the biggest slice of the fortune left by the late King Ferdinand, and has begun a court action to get it.

A power of attorney to act for Prince Carol in contesting the will, was presented by the prince's former adjutant, General Condesku, before the court of appeals. This set forth that Prince Carol was not agreeable to what others considered an equitable division of the estate.

COUNTY PORTION OF VIADUCT FUND MADE AVAILABLE

Final Agreement Between City and Power Company Believed Near; Work Almost Ready To Start.

Three important steps in furtherance of plans for construction of the Pryor street and Central avenue viaducts were initiated Wednesday with the result that all financial arrangements for erection of the bridges are expected to be completed within a week.

They are: First, agreement of Fulton county to contribute \$500,000 as the county's share toward the projects; second, hearing by the bridge committee of city council on claims of the Georgia Power company for a stipulation virtually guaranteeing the company a traction monopoly in Atlanta as long as the service is adequate and other service is not a public necessity and convenience, with the prospect of acceptance at an early date of a compromise agreement, and third, hearing by the bridge committee and the viaduct committee of the bond commission of the Atlanta & Lowry National bank and Connally Realty company interests on proposed construction of the Alabama street approach on a level from Whitehall street to the top of the Pryor street viaduct.

While no definite action was taken on either of the latter hearings, it was predicted that the city would accept a compromise proposal of Preston S. Arkwright, president of the power company, to the effect that the \$400,000 contribution, which is the only financial matter left unsettled, be paid in installments.

RACIAL INTEGRITY BILL DEAD LETTER

Impossible to Enforce New Registration Law Because Legislature Made No Appropriation.

The racial integrity bill, passed by the general assembly at the recent session and signed by Governor L. G. Hardman, cannot be put into effect because its operation will cost \$300,000 and no appropriation was made for this expense, it was definitely decided Wednesday afternoon at a called meeting of the state board of health.

The decision was reached following a ruling from the attorney general's office which set out that if the fees were collected they would be required to go into the general fund of the state and could not be used by the board of health for enforcement of the legislation.

A warrant for \$1,000 drawn on the board of health appropriation has been held up by Governor Hardman because the chief executive believed that the new law could not be put into effect with funds the legislature set aside for other specific purposes in the health department.

It is estimated by state officials that enforcement of the integrity bill will require at least 125 employees in the health department and cost \$200,000 during the first year of its operation. Although the bill provides that every person in the state shall pay 30 cents for the registration of his name, this money must be put into the state treasury and cannot be taken out again, as the legislature did not make an appropriation for the operation of the new law, it was brought out.

The new law provides for the immediate registration of every man, woman and child in the state, and a card index of their racial descent for future reference when applications are made for marriage licenses. It prohibits the issuance of such licenses until the records of the state board of health have been checked.

The cost of making the state-wide census of racial descent, which is one of the 15 cents out of each 30-cent fee paid to 161 registrars in the various counties, has been estimated by officials of the health department as follows:

Printing 6,500,000 registration blanks in duplicate, \$25,000; 117 files for same, \$12,000; employing 161 typists at \$75 per month, \$30,000; verifying and sorting records, \$118,000; printing marriage license blanks and sending them out, \$100,000; desks and other incidentals, \$4,000.

The racial integrity bill, intended to prevent the intermarriage of persons whose ancestry showed different blood several generations back, was introduced by Representative John C. Davis, of DeKalb county. There was practically no opposition to the measure in either branch of the legislature.

Last Arguments Will Be Made This Morning and Judge Then Will Deliver His Charge.

WIDOW IS SCORED BY STATE LAWYERS

Attorneys for Defense Assert Prosecution Has No Case and Attack Conduct of Trial.

Greenville, S. C., September 7.—(AP) The case of Mrs. Ethel Willis, widow of Sheriff Sam Willis, of Greenville county, and Henry Townsend, deputy sheriff, charged with the murder of the sheriff on June 12 last, will go to the jury about noon tomorrow.

The fifteenth day of the trial today was taken up with about an hour of rebuttal testimony by the state, the defense having closed late yesterday, and hearing of one sur-rebuttal witness for the defense, and six hours of argument by attorneys.

Tomorrow morning two more attorneys will speak, each having one hour, and then the charge of Judge Milledge L. Bonham. The jury then will get the case.

Courtroom Crowded.

The courtroom today presented a crowded scene, as has been the case ever since the trial started. At times there was almost complete silence as one attorney or another pleaded with the jury to acquit the defendants or to convict them. Silences were broken time after time by sobs of women as defense attorneys roundly scored the officers who conducted the investigation leading to the arrest of the widow of the dead man and his best friend on the charge of having slain him after they had been under friendly relations.

Defense attorneys pointed to the attitude of the relatives of the dead sheriff and the wife of Townsend, especially the dead man's mother and sisters who testified to an ideal life in the home of the sheriff and the accused woman, and the wife of Townsend who asserted there was nothing wrong between her husband and Mrs. Willis and who stoutly refuted testimony of state witnesses regarding the attitude of Mrs. Willis and Townsend.

They also asserted that the charges against the couple and their trial had reduced to a minimum the possibility of apprehending the real slayer. "These defendants are unfortunate victims of circumstances," Prosecutor A. Bonham, son of the presiding judge and a defense attorney, told the jury in his talk. He deplored the prosecution of the two as aiding the real slayers to escape.

Assails Mrs. Willis.

Attorney General John M. Daniel, of South Carolina, the first of the state counsel to address the jury, assailed Mrs. Willis for not going to the body of her husband when she saw he had been shot. He inquired of the jury how she knew he was dead when she had not been close to the body. He also, enlarged on a statement credited to Townsend when he was arrested that the arresting officers should "keep on digging until you get to the bottom of it."

C. G. Wyche, for the defense, characterized the state's case as "straw." As he spoke women, scattered about the crowded courtroom, sobbed aloud. He went over the state's circumstantial evidence, link by link, which he declared testimony of defense witness.

DRY CHIEF RAPPED FOR SMITH ATTACK

Representative Boylan Asks Secretary Mellon If He Indorses Address Made at Buffalo.

Washington, September 7.—(AP)—Secretary Mellon had placed before him today a vigorous protest from Representative Boylan, democrat, New York, against the Buffalo Labor day speech of Assistant Secretary Lowman in which Governor Smith was described as a force detrimental to prohibition.

It was said at the treasury that the secretary would confer soon with Lowman and at that time would take up his protest, which charged the dry chief with "gross abuse" of his federal office and asked if the secretary would endorse "the action of your subordinate."

"If quoted correctly in the press, Lowman took advantage of his position as a federal officer to make a political speech which was an insult not only to Governor Smith but also to the people of New York state," Boylan said. "I refer to his assertion that the repeal of the state enforcement law has made it impossible to enforce the dry law in New York. In making this statement Lowman is entirely mistaken."

"The people clearly showed their feeling last fall when they elected Alfred E. Smith governor for the fourth time, and at the same election they administered a overwhelming defeat to Lowman who was a candidate for lieutenant governor of the republican party, which tried to be half wet and half dry in my state."

SILENCE SHROUDS PROGRESS AT SEA OF JOHN CARLING

Plane Hops Off From Harbor Grace and Now Is Believed To Be Speeding To England.

NOTE TELLS FLIERS OF GLORY'S DOOM

Authorities Did Not Notify Aviators Before Leaving, Fearing To Dampen Spirits.

Harbor Grace, N. F., September 7.—(AP)—The Sir John Carling, believed tonight to be speeding far out over the sea and traversing the areas where Nungesser and Goll's Bluebird was lost, where the St. Raphael with Princess Lowenstein-Wertheim aboard disappeared, and the spot where the Old Glory was last heard from.

Unaware that the Old Glory had sent out an SOS and that her fate was in doubt, the Sir John Carling, piloted by Captain Terry Tully and Lieutenant James Medcalf, made a graceful hop-off from the airport here early today on what they hoped would be the last lap of their previously-intentioned non-stop flight from London, Ontario, to London, England.

Heads Across Atlantic.

The plane took the air at 7:25 a. m., eastern standard time, and last was seen heading across the Atlantic at Cape St. Francis, 30 miles away. The plane carries no radio equipment.

ELECTION FIGHT AGREEMENT SEEN

Recout of All Ballots Cast in Vore-Wilson Election in Pennsylvania Now Appears Likely.

Chicago, September 7.—(AP)—A recout of all ballots cast in the 1926 senatorial election in Pennsylvania to decide the Vore-Wilson contest appeared likely following a joint meeting of the Reed campaign fund investigation and the senate privileges and elections committees here today.

Both William S. Vore (republican) senator-elect, and William B. Wilson (democrat) his opponent, agreed to immediate impounding of all ballots for the senate to prevent their destruction this month. Under the Pennsylvania law they may be destroyed after September 20.

Factions Fail to Agree.

The Vore and Wilson factions, however, failed to agree on the form of petitions to restrain election officials from destroying ballots. The contestants for the senate seat and their attorneys left for Philadelphia tonight, hopeful of untangling that knot before reaching the Pennsylvania metropolis tomorrow.

The influence of the committees with Vore, Wilson and their counsel, which was closed to newspaper men, Senator James A. Reed (republican), chairman of the investigating committee, stated: "Wilson takes the position that he has charged fraud in six counties. He says the ballots in two Philadelphia and Allegheny. Four others have not been obtained, although in Delaware county an injunction against their destruction has been issued."

Vare made no charge of fraud in any part of the state. Both parties agreed to cooperate in securing the custody of the ballots in all counties of the state. Both expect to be reimbursed by the senate. Although Vore makes no charges he holds that if some ballots are opened all should be. "It is understood each party will file petitions in the tribunal he selects, the other party consenting to the impounding of the records and ballots but will reserve any rights he may have as if he had not consented. Vore in no way recognizes the authority of the committee."

Leave Avenue Open.

Attorneys for Wilson, headed by Charles A. Douglas, and Roland B. Mahony, of Washington, and David Aallenstein, of Philadelphia, reserve the right to file petitions in local courts of Delaware, Schuylkill, Lackawanna and Luzerne counties, should they encounter obstacles in federal courts.

The need for immediate action because of a primary election in Pennsylvania this fall was stressed. Ballot boxes will be needed and disposition of their contents must be made soon or the ballots will be destroyed.

Wives of Old Glory's Crew Hopeful Husbands Survive

NEW YORK, September 7.—(AP)—Shaken by the unknown fate which overtook the Old Glory, but confident that its crew will survive the buffeting of the Atlantic, Mrs. Philip A. Payne, wife of the plane's passenger, and Mrs. Lloyd Bertaud, wife of one of the pilots, have planned hope for the safety of their husbands and of J. D. Hill, co-pilot, on precautions taken before the giant plane hopped off for Rome.

In a statement issued today through the New York Mirror, the wives of Payne and Bertaud and Mrs. Florence Callahan, Bertaud's mother, said that the equipment and excellent order aboard the Old Glory, together with provisions made for emergencies, gave them confidence that the three men eventually will be picked up.

On their arrival here this morning from Old Orchard, Maine, where they saw the Old Glory take off yesterday, the three women and Mrs. Payne's sister went to the Martha Washington hotel, where they parted after an hour, Mrs. Payne going to the home of her parents in Brooklyn and Mrs. Bertaud, with Mrs. Callahan, to the Hotel White, where the Paynes make their home.

They were near collapse when, at New Haven, news of the Old Glory's SOS reached them. Members of their party wired ahead to insure protection for them when they reached the Grand Central terminal. After the train arrived they were spirited out of the station away from a squad of reporters and photographers.

THREE MORE MEN ADDED TO LISTS OF "LOST AT SEA"

Carmania and Transylvania Report No Traces of Missing Airplane and Proceed on Way.

ROUGH BREAKING SEA IS REPORTED

New York, September 7.—(United News)—Convinced that their search was hopeless, the two liners leading the quest for the missing monoplane Old Glory abandoned their efforts and proceeded on their courses as night fell Wednesday over a cold, rough, squally sea. Both the Carmania and the Transylvania radioed that they were continuing on their voyages.

It was then more than 16 hours since an SOS call for help had been received from the plane 800 miles or so out from the Newfoundland coast on its cruise to Rome.

Ships Sought to Aid.

All day, these and other ships sped toward the spot—or area, and a large one—where the plane was believed to have gone down, its urgently flashing radio suddenly silent, at 3:17 a. m., eastern standard time.

The American Merchant, the California and the Capulin were among the ships searching in the probable area where it was hoped the Old Glory or its rubber life raft might be found.

There was only a pitifully small period between the time the nearest ship reached the area and nightfall, and it had been many hours since, at 3:17 a. m., James Dewitt Hill, co-pilot and radio operator of the Old Glory, had last sent out his desperate appeal: "WRHP—S. O. S.—Five hours out of Newfoundland."

The first appeal had been sent out ten minutes earlier; it was assumed that as the last one was sent, the Old Glory sank onto the surface of the sea, her radio out of action by contact with the water.

Despairing Messages.

At nightfall, a series of radio messages arrived from ships in the search, all despairing.

"Now nightfall and quite dark," radioed the commander of the Carmania to the United News. "Regret search for missing plane, Old Glory, without result. Weather conditions, fresh westerly wind, cloudy squally and rough breaking sea. Consider very small chance survival of collapsible boat under present conditions. Now proceeding on great circle (course) to Cape Race. (Signed) Commander."

That came on top of an earlier message. The last one meant, actually, that

Redfern Hunt May Be Made By Smithsonian Institution; Brunswick Is Encouraged

Mother of Daring Georgia Airman Says She "Wants to Feel That Paul Is Safe."

Washington, September 7.—(AP)—Smithsonian institution officials said today they had been asked by Richard O. Marsh, now at Rochester, N. Y., if they would be interested in sending a man with an expedition to seek Paul Redfern, missing Brunswick to Brazil aviator, and that an affirmative reply had been given.

The institution's final decision, however, will depend on whether it can get a qualified man to make the trip. His duties would be to collect zoological specimens.

It was understood by the institution that the expenses for its representative, should he be sent, be paid from outside sources.

Marsh achieved publicity a year or two ago from his reported discovery of a tribe of "white Indians" in Panama.

BRUNSWICK GREATLY ENCOURAGED BY NEWS.

Brunswick, Ga., September 7.—(AP)—Greatly encouraged by confirmation of the report that Paul Redfern in his monoplane Port of Brunswick, was seen by the Norwegian steamer Christian Krogh, Paul J. Varner, local flight committee chairman, who has just returned from a business trip to New York and Washington, today reiterated his previous belief that the Brunswick-Brazil flier had safely landed somewhere in South America and that he would eventually be heard from.

Varner announced that he conferred with state department officials while in Washington and that the search for the youthful flier was now being handled by the government, with the assistance of the local flight committee. Through the state department Brazilian authorities have cabled, asking if an expenditure of \$2,000 would be guaranteed to pay the expenses of an expedition to start out from Para in

search of Redfern. The cablegram was transmitted to Varner, who replied, announcing that the required amount would be gladly furnished, provided some definite information could be ascertained as to the locality to be searched.

Varner explained that unless something was known as to the area in which it is figured the flier landed such a search would be useless. The cable from Brazil stated that the expedition would be composed of persons familiar with the country, a physician, etc.

MOTHER HOPEFUL OF SON'S SAFETY.

Columbia, S. C., September 7.—(AP)—"I want to feel that Paul is safe, but I do not know," said Mrs. Fredrick C. Redfern, mother of Paul Redfern, missing aviator, today.

Mrs. Redfern, who is the wife of the dean of Benedict College, arrived here early today from Rochester, N. Y., where she had been visiting. Mrs. Isabel Redfern, sister of the missing aviator, accompanied her mother.

Discussing opinions previously advanced that her son should not be able to make his air jump from Brunswick, Ga., to Brazil, Mrs. Redfern said: "If he fell in with white Indians in the jungle he would be safe, for they are kind and would do what they could for him."

"But there are hostile tribes of Indians and they would very likely kill him if he landed among any of them. Being alone may be an advantage because the Indians would not think that he meant to do them harm. And yet being alone would mean with some of them that he was the Devil. In that case they would not kill him but they would be too awed to help him in any way."

"If he landed in the mountains of Venezuela or in the jungles where there are no Indians, then—Mrs. Redfern left the sentence unfinished. Though generally composed, at several points during the interview Mrs. Redfern seemed to be on the verge of breaking down.

LOGS OF TWO PLANES BY ASSOCIATED PRESS

Royal Windsor.
4:55 a. m. (eastern standard time), takes off from Old Orchard, Maine, for Windsor, England, with a stop at Harbor Grace, N. F., for refueling.
8 a. m., passes over Clarksville, N. S., headed east.
10:45 a. m., sighted high over Glenagarry, Pictou county, N. S.
12 m., passes over Flat Islands, Placentia Bay, N. F.
12:50 p. m., arrives at Harbor Grace, N. F.

Sir John Carling.
7:25 a. m. (eastern standard time), takes off from Harbor Grace, N. F., on London, Ont., to London, England, flight.

WINDSOR OFFERS TO HELP SEARCH

Harbor Grace, N. F., September 7.—(AP)—Phil Windsor and Duke Schiller, co-pilot of the monoplane Royal Windsor, tonight offered to turn their Windsor-to-Windsor trans-Atlantic flight into an air search for Old Glory.

"We offer the Royal Windsor to Mr. Hearst and will take a full load of gasoline starting Thursday morning to make an exhaustive search for Old Glory."

"We know the exact course the ship was steering, as Wood, in conversation with Bertand yesterday morning, discussed the 117th meridian course as the most probable for reaching Bordeaux."

Plans to give the fliers the latest information on the last known location of the Old Glory and progress of the search for her were immediately formulated.

SCHILLER AND WOOD READY FOR FLIGHT.

Harbor Grace, N. F., September 7.—(United News)—Eager, like the two crews who have preceded them in the last 24 hours to stake their lives on their belief that they could make the trans-Atlantic flight, Phil Windsor and Duke Schiller were preparing tonight to take off for Windsor, England, as soon as conditions permitted.

They have not announced when they will start, but it is believed they will try to hop Thursday morning.

Wood and Schiller, in their Royal Windsor, arrived at 12:50 p. m., eastern standard time, from Old Orchard, Maine. They had been forced down by fog several days before on what was to be a non-stop flight from Windsor, Ontario, to the ancient-castled English Windsor for which the Canadian town was named.

Only five and one-half hours before, their brother Canadians Medcalf and Tully, in the Sir John Carling, had left for London, England, in the path of the Old Glory.

Lloyd W. Bertand, chief Old Glory pilot, confident in the ability of his plane to make the journey, had wanted the Royal Windsor to accompany him, so it could take advantage of the Old Glory's powerful radio set.

The set has been silent now since this morning, when it called for help. Wood and Schiller hoped the Sir John Carling would wait for them, but they found it had gone on.

A large crowd awaited the Royal Windsor at the flying field here. The plane made an excellent landing, and amid cheers the airman were welcomed by municipal authorities.

Wood and Schiller showed their sorrow over the news—which they only heard on their landing—of the Old Glory's possible fate.

LIFE SAVING SUPPLIES CITED BY AVIATORS.

Roosevelt Field, N. Y., September 7.—(AP)—A collapsible rubber lifeboat, an emergency dump valve in its gasoline tanks and a supply of flares and rockets carried by the monoplane Old Glory were cited by aviation officials here today as a basis for the belief that the occupants of the plane had a chance of saving themselves if they were forced down at sea.

Lloyd W. Bertand, one of the pilots on the plane, tested the boat in Long Island Sound a few weeks ago when

Hearst Asserts He Opposed Old Glory Starting Flight

Los Angeles, Cal., September 7.—(AP)—William Randolph Hearst, newspaper publisher and owner of the airplane Old Glory, missing at sea in its attempted trans-Atlantic flight, today issued a statement in which he said he had done his best to prevent the flight.

With the brief statement, Hearst made public an exchange of telegrams in which he had urged through New York representatives that the plane should not start unless the government would assume the responsibility.

Statement by Hearst.
"I was apprehensive of the trip, on account of the record of the government. I did not want to prevent the plane from going. I had no idea that Mr. Payne (Phil Payne of the New York Mirror) was going under any circumstances. I earnestly hope that all on board Old Glory will be saved."

The telegrams made public by Hearst read:

"San Simón, Cal., September 2, 1927. Day letter:
"Ed. S. Colburn, New York, New York. (Copy to Phil Payne).
"I do not think Old Glory should start except under the auspices and with the full approval of the government. In view of the recent disasters, I will not assume responsibility, but will proceed only if the government will assume authority and responsibility."

"The flight is not undertaken for promotion purposes but to advance aviation, and it is doubtful whether the flight of recent events these flights do advance aviation."

"These numerous disasters may retard it. Therefore, I wait the sanction of the government."
"Signed W. R. HEARST."

Reply of Payne.
New York, N. Y., September 3, via San Luis Obispo, Cal., September 4, 1927.

"I have read your letter of the 2nd inst. and am glad to hear that you are not opposed to the flight. I have been a great chief to work for. I honor and love you and I know you will forgive me any mistakes I have made. Affectionately, PHIL PAYNE."

"Atlanta Hurt in Crash Near Hampton."

There were others, but these tell the tale of death and suffering in the wake of the growing accident wave and the peril it presents to you.

Are you fully insured against abrupt halts of the growing accident wave? Are your loved ones—your wife and babies—safeguarded against privation if you should be killed?

Act today. The Constitution offers you the famous \$7,500 travel accident policy issued by the North American Insurance company, of Chicago. This old and reliable concern already has paid more than \$500,000 in claims to Constitution policyholders.

The policy, which costs only \$1.25 per year, provides a payable of \$7,500 in case of death resulting from certain accidents; heavy cash payment for permanent injuries and \$10 weekly indemnity for disability resulting from the stated accidents. And the cost is only a fraction of a penny a day.

A train wreck, a crash of automobiles, the speeding wheels of an on-rushing car or a burning building may leave you a victim of the ever-growing wave of accidents today.

In this paper appear regular advertisements supplying full details of the great offer. Write for them. This \$7,500 travel, \$2,000 auto and \$1,000 pedestrian accident policy is issued only to subscribers of The Daily and Sunday Constitution.

One who is now taking The Daily and Sunday Constitution or will subscribe for same through carrier in Atlanta or suburbs, through an out-of-town carrier or dealer, paying for his paper weekly, monthly or otherwise, is a subscriber and is eligible.

Those taking The Daily and Sunday Constitution by mail, either through a postoffice or rural route delivery, are eligible by paying \$1.25 per year per policy above the subscription price.

In sending applications for insurance the applicant must state name, age, in full, give age and occupation. If beneficiary is desired, full Christian name must be given and relation of same to the insured.

HARRISON URGES SPECIAL SESSION

Washington, September 7.—(AP)—In a letter to President Coolidge, Senator Harrison, democrat, Mississippi, today urged the calling of an extra session of congress in October to consider flood relief.

He said that rather than call just the senate into session to settle the Illinois and Pennsylvania senatorial contests, both the senate and house should be assembled to take up flood control.

"In view of the necessity for immediate action to make levees regular in the Mississippi valley and the recent ruling of Comptroller General McCarlin refusing the secretary of war permission to use the necessary sum for the repair work out of the rivers and harbors appropriations available for next year, may I express the hope that the congress be called into extraordinary session in October so that appropriate legislation can be passed making immediately available adequate funds to carry on this work," the letter said.

RESPIRE OF 60 DAYS GIVEN FILM LEADERS

Washington, September 7.—(United News)—Adolph Zukor, Jesse L. Lasker and Famous Players Moving Picture corporation were given a 60-day respite from the "cease and desist" order against block booking pictures by the federal trade commission today.

The extension was granted to allow the movie magnates to work out a cooperative trade practice through the conference arranged by the commission in which the entire motion picture industry will participate.

Further action against the corporation and the two principal owners will depend upon the outcome of the conference agreements, the commission said.

UNIONISTS OF BRITAIN BREAK WITH RUSSIANS

Edinburgh, Scotland, September 7.—(AP)—The proceedings of the trade union congress today heralded a complete break between British and Russian trade unionists. Tomorrow the congress will debate the recommendation of its council that no useful purpose will be served by continuing negotiations with the all-Russian council of trade unions. With this recommendation copies of missives from the Moscow leaders were circulated among the members of the congress, charging W. H. Thomas and other British labor leaders with treachery in connection with the British miners strike.

The congress gave its support to the council's report today and on a vote of 3740 to 1740, refused to refer the report back to the council, against 148,000 in favor of such a step.

Canteens of "culery" were presented to the fraternal delegates, including J. Corfield and M. Casey of the American federation of labor, and G. R. Brunet, of the Canadian trade union congress. It was noticeable that the canteens presented to the American delegates contained corkers.

Nicaragua Opens War on Bandits

Washington, September 7.—(AP)—Opening of an active campaign by Nicaraguan constabulary against the bandit bands of Salgado and Sandino was reported to the state department today by the Mangua legation. Minor engagements occurred on September 2 and 3, the message added, none of the government forces having been injured but five members of Salgado's band are said to have been either killed or wounded.

While these advances made no mention of American marines, a report to the navy department from Rear Admiral Sellers said that some of these marines, being aligned with the constabulary, were engaged in the fighting.

The legion's report to the state department said that the constabulary supposed followers of Sandino near Quilichagua encountered between the troops and Salgado's band occurred at Telepacan and five of the band were seen to fall from their horses "probably killed or wounded."

A delayed report from Admiral Sellers said the Salgado had been given an ultimatum fixing Sunday as the last day on which his forces might turn in their arms and disband, under penalty of "forcible" disarmament.

Pilots Appreciate Offer.

1927, September 6, P. M., 3:34.
New York, N. Y., September 6, 6:35 p. m.

W. R. Hearst, Los Angeles, Cal., Sept. 6.—Pilots appreciate your appreciation of their work, but insist they be allowed to fill their contracts to fly. Weather ideal today and conditions favorable to flight.

I telegraphed you all this and have tried to have you get pilots to accept and give up dangerous adventures.

I honor and love you and I know you will forgive me any mistakes I have made. Affectionately, PHIL PAYNE."

SOUTHERN RATE FIGHT RENEWED

Baltimore, Md., September 7.—(AP)—Denial of the request of Baltimore and south Atlantic shippers for elimination of a ruling alleged to abrogate rate differential advantages enjoyed by freight shipped from the central freight association territory, was contained in a letter from L. C. Thackara, chairman of the interstate conference, to G. H. Pouder, chairman of a committee of Baltimore, Norfolk and Newport News traffic executives, formed to protest equalization of the rates.

The committee presented its request to representatives of the interstate conference in New York last week.

Following a meeting of the committee some time next week Mr. Pouder said, an appeal to the United States shipping board will be made as the next step in the contest.

The conference is without power to take away the right of ship lines to equalize rates, Mr. Thackara said, and therefore it is beyond the power of the conference to take a hand in the matter.

"Equalization was the only right which the lines did not give up when they entered the conference," he continued.

MEXICO DEFENDS ALLEGED BOMBERS

New York, September 7.—(AP)—New York state in its prosecution of four men for the bombing of the Brooklyn supreme court house early Monday morning ran into an international snafu today. When the quartet was arraigned, counsel for the Mexican consulate appeared and announced that none other than the Mexican consul general would defend them, as they are citizens of that republic.

This led department of labor officials to institute an investigation to determine whether they had entered the United States legally.

"It is to prevent a possible repetition of the Sacco-Vanzetti case," said Robert Wilson, representing the Mexican consulate, "that Mexico is taking a hand."

Sacco and Vanzetti were accused of plotting the bombing of the Boston post office in 1920. They were accused of plotting the bombing of the Boston post office in 1920.

The execution of Sacco and Vanzetti was regarded in many circles in Mexico as growing out of anti-racial prejudice. It was in Mexico that Sacco and Vanzetti found refuge from military service during the world war.

Julian de Hoyas and Jesus Silva were arraigned on charges of planting the bomb which shattered \$500 worth of windows Monday morning, and Jose Diaz and Victor Ferr were held without bail for a hearing next Monday.

GIRLS' HIGH FOUNTAIN DEDICATION TONIGHT

Appropriate exercises will mark dedication of a handsome fountain in the girls' court of Fulton high school erected and presented to the school by the Fulton High School Alumni association, at 7:30 o'clock tonight.

J. S. Heard, Jr., president of the alumni association, will preside and will have charge of the formal presentation. All alumni of the school are urged to be present both for the dedication and for transaction of important business matters in a meeting of the association which follows.

The fountain is of red brick and concrete construction, harmonizing with the new school building. It was erected at a cost of approximately \$350.

THE WEST POINT ROUTE

2 TENNESSEANS DIE IN AIR CRASH

Memphis, Tenn., September 7.—(AP)—Albert W. Biggs, 23, of Memphis, and Lieutenant Tackey McFarland, of the 105th aerial squadron, Nashville, were killed early tonight when the airplane in which they were riding went into a nose dive and crashed near Armstrong field on the outskirts of Memphis.

Biggs, a bond salesman and son of the late Albert W. Biggs, a Memphis attorney, bought the airplane in Nashville yesterday. McFarland was acting as instructor to Biggs in teaching him to fly the machine.

Biggs is survived by his widow, formerly Miss Lucy Virginia Broadnax, and one son. They were married in 1926.

After being graduated from the University of Tennessee, Mr. Biggs became a reporter on the staffs of Memphis papers, after which he traveled in Europe. Since his return he has been affiliated with a local bond house as a salesman.

He was taking lessons in flying at the time of his death.

He became intensely interested in aviation during the past year and at one time considered making an effort to enter the army air corps cadet unit. He was a member of the Memphis Aero club.

The plane's fall was witnessed by Dr. L. C. Johnson, of Woodstock, who had been watching it in flight from his home, he said. He was one of the first to reach the scene and aided in the removal of the bodies.

"My wife and I both noticed the plane from our home," he said tonight. "When we first noticed it, it apparently was going all right. Then what appeared to me to be a backfire occurred and it started to dive down. I started at once for the field and aided in turning the plane over. The nose had buried itself in the ground and then turned over. It was difficult to recognize the bodies."

Brilliant Sun Is To Bring Rising Mercury Today

A brilliant sky today will foster a moderate upward trend of the thermometer, thinks C. F. von Herrmann, meteorologist.

The state at large has little to fear from rain-fall for the next few days, according to present indications.

The mercury in Atlanta Wednesday rose from a low mark of 66 to a high point of 86 by mid-afternoon. The forecast for today calls for a few drizzles above these extremes.

LUNG YIELDS SEED

Delicate Operation Saves 6-Year-Old Child.

Richmond, Va., September 7.—(AP)—Memorial hospital surgeons, in a delicate operation, removed a watermelon seed from a lung of 6-year-old Katherine Martin, of Sparta, Va. The girl will recover.

LOUISIANA SOLONS
STUDY REPARATION

Baton Rouge, La., September 7. (AP)—The Cernarvon reparations bill with seven little disputed amendments and two other provisions rejected was reported favorably by the joint judiciary committee today a few minutes after the house recessed in order to permit them to resume the two-hour discussion of earlier in the day.

The question of inclusion of damage from losses of salary sustained by workers employed in the area affected, was injected into the discussion by the committee this morning in which opposing interests, at one time speaking for the flooded area and others speaking for New Orleans, frequently clashed.

The battle in the committee was over the inclusion in the terms of the constitutional amendment of articles or phrases which, according to the viewpoint, would give the damage claimants or the Orleans levee board too much leeway in the matter of claims.

The proposed amendment, by John Dymond, Jr., one of the flooded area representatives would have emphasized the spirit of the bill, stating the intention of the act to be that all sufferers from the crevasse should be justly, fairly and fully compensated for losses sustained. It was defeated 12 to 3 after long argument.

It finally being the sense of the committee that such damage claim would inevitably be presented to the courts if rejected by the commission, the amendment was voted down. Amendments adopted provided for 5 per cent interest on damage claims from April 29, 1927, to date of payment, except in subsequently accruing sums; for the filing of all claims with the reparations commission opportunity be given each claimant and the levee board to adjust the claims for disposition of all cases with the least possible delay; for applying the maximum time for filing claims with the civil district court as well as with the commission, and for filing by the levee board with the state treasurer of a certified copy of its proceedings incident to the issue of bonds authorized by the bill.

HOOPER TO ADDRESS
LOUISIANA SOLONS.
Athens Man Named
On Committee To Seek
Jewish College Funds

Athens, Ga., September 7. (Special.)—M. G. Michael, well known Athens citizen, has been appointed a member of the committee which will launch a campaign soon for the Yeshiva College of America, a national Jewish institution, it is announced here.

The Yeshiva college, which is now being constructed in New York city to house the Yeshiva Jewish institution for higher learning, which trains rabbis and teachers, will be erected at a cost of \$5,000,000, it is stated.

4 Jury Members
Named for Trial
Of Leonard Cline

Rockville, Conn., September 7. (United News).—Indications that the state will ask the death penalty for Leonard Cline, novelist and short story writer, were seen in the elimination of talesmen opposed to capital punishment when his trial got slowly under way in the Tolland county courthouse Wednesday.

Cline is charged with shooting to death his friend, Wilfred Irwin, former newspaperman and insurance agent, while the latter was a guest at Cline's farmhouse home, Chicory Hill, May 16.

Cline, the author of "Godhead" and "Listen, Moon," completed another novel, "The Dark Chamber," while in jail awaiting trial.

Cline first decided to entrust his fate to three judges but later asked for a jury trial. George N. Sterry, a storekeeper, and John Swanson, a farmer, were the first jurors accepted. The others may be delayed.

Another farmer, Charles Long, and a poultry dealer, August H. Mattern, were selected just before the day's session ended.

Judge Edwin M. Yonanas directed that a new panel of 50 Talesmen be called for Thursday.

Baptist Student Union
At University To Aid
Students Upon Arrival

Athens, Ga., September 7. (Special.)—The Baptist Student union at the University of Georgia is making plans to be of all service possible to the students there when school opens in September. All trains will be met with cars, and there will be a group of students near the registration office to give information and help the new students get registered and suitably located.

The union is also going to make a special effort to get the new students to line up with the church of their choice as quickly as possible after reaching Athens.

D. B. Nicholson, the Baptist student secretary, is being assisted by A. J. McDonald, Harry Carswell and O. C. Joiner, students, in perfecting arrangements.

Anyone planning to enter the university this fall will find assistance from any of these named.

ATHENS TO HOLD MEET
ON TOBACCO GROWING

Athens, Ga., September 7. (Special.)—W. M. Fields, tobacco specialist, who has been in charge of growing tobacco in Oglethorpe county, will be in Athens Thursday for the purpose of conferring with those in this section interested in tobacco next year.

Fields comes to Athens at the request of the chamber of commerce to give information on the tobacco industry and the adaptability of the soil in this section to the production of that crop.

TEACHERS' COLLEGE
TO OPEN AT ATHENS

Athens, Ga., September 7. (Special.)—Students of the Georgia State Teachers college, formerly the State Normal school, are arriving here for the fall term. Dr. J. M. Pound, president, announces that the school is filled to capacity and that hundreds of applicants were turned down because of the lack of accommodations at the institution. About 700 students are expected to register.

Registration of students will continue through Thursday morning. The opening exercises will be held Thursday morning in Pound auditorium. Dr. Pound will deliver a short address.

Byrd To Sail on Voyage
To South Pole Next August

Richmond, Va., September 7. (AP)—Commander Richard Evelyn Byrd will leave New York next August on his south pole expedition. He will have his own ship, probably a shipping board vessel, and Floyd Bennett, north pole companion, will be second in command of the party.

The commander divulged this to an Associated Press reporter as he sat in the office of his brother, Governor Harry F. Byrd, in the capitol building here. The exclusive interview was the first the famous flier has given regarding his proposed south polar trip since his return from France.

It was also the first visit the commander had made to his home state since his return. He made the dedicatory address yesterday at the unveiling of a monument to the French dead at Yorktown and passed through Richmond today on his way north.

"There have been many surprising reports about this trip, none of which I gave out. A recent rumor said that I was going to sail from Norfolk this month on a whaling ship. I did consider leaving on a whaling vessel but found that inadvisable, and as for leaving this month that's out of the question, of course," he said.

"My schedule, as I have thus far planned it," he continued, "is something like this: We will leave New York in August and stop at Hampton Roads and probably at the Panama

BOSTON
By Joseph Hergesheimer

The picturesque old city of the clipper ship days is the scene of this story; but the story itself is as old as human nature and as modern as jazz, for it deals with the revolt of youth against things as they are. Nicholas Elliset, mixture of Puritan and Cavalier, successful as a merchant, and wanderer of the Seven Seas, has a problem in his son Ambrose, who has decided to seek self-expression in a radical colony. How he meets the situation is the base of Mr. Hergesheimer's fascinating story of Boston in the '40's.

enjoy the trip it is likely I wouldn't go. However, on this trip we expect to get invaluable meteorological information. The south polar region is probably the stormiest place on the face of the earth. It is much colder than the north pole. In the first place, there are mountains as high as 15,000 feet and the pole is at an elevation of around 10,000 feet, while the north pole is zero. The Arctic is mostly water and is frozen the year round because of this. If ground existed at the north pole it would be uncovered during the summer period when there are 24 hours of sun. Then the Arctic may be less severe because it is water and could be affected by warm ocean currents which penetrate far north. Also think that the Antarctic glacial age is more recent than the Arctic."

"It is hard to realize the preparation necessary for such a venture," he said. "Remember, the distance from New York to the south pole and back is greater than the circumference of the earth at its greatest diameter."

The trip will take well over a year, he stated, and a staff of scientists in several fields will go on the expedition.

"We will leave the canal and go directly to New Zealand, where we will probably stop at Wellington. From there we will go down to the ice barrier."

The famous flier said that the Chilean government has offered him the services of its navy and expressed his gratitude. "I have thanked them through official channels and said that I would make use of the generous offer should occasion arise," the commander stated. "It might be possible for one of their ships to help us refuel or render some other assistance. It is a fine offer whether we take advantage of it or not."

While the expedition is primarily a scientific one, the commander said that the thrill of adventure which took him round the world when he was in his early 'teens is still with him.

"Are you a scientist or an adventurer?" he was asked.

"Well, all of my trips are made or scientific purposes, but if I didn't

of the earth at its greatest diameter."

AUSTIN TO VISIT
LEROY WEBB & CO.
THIS AFTERNOON

Gene Austin, the famous "crooning tenor" who is appearing this week at Keith's Georgia theater, this afternoon between 1 and 1:30 o'clock, will be guest of honor of Leroy Webb & Co., at 27 Pryor street, N. E., at which time the general public has been invited to call and greet him.

The songster, whose records are greatly in demand here, will autograph each of his records sold during his visit to the Webb company, which handles a line of Orthophonic Victor and Victor records.

Officials of the Webb company Wednesday invited all music lovers to be on hand to meet Austin personally during his visit to their store.

The Bellamy Trial
By Frances Noyes Hart

STEPHEN BELLAMY and Sue Ives are charged with the murder of Stephen's wife, the bewitching Mimi, whose specialty in life had been breaking men's hearts. For the eight days of the trial, and the eight installments of the serial, the witnesses give their testimony as to the events leading up to the tragedy in the gardener's cottage that fateful June night, and you will be no nearer a solution of the mystery at the end of the seventh day than you were at the beginning of the first.

A story that will wring your heart one moment and make you smile the next, but that will hold you from the first line to the last.

The Comeback of Europe
By Isaac F. Marcossion

Optimism is the keynote of this first article in Mr. Marcossion's new series. After a three months' investigation, during which he interviewed, among others, the masterful Mussolini, Poincaré, hero of the Battle of the Franc, Stresemann, the dynamic and aggressive Chancellor of Germany, and J. H. Thomas, Labor Leader of Great Britain, Mr. Marcossion reports that at no time since the Armistice has Europe been so nearly back to normal as she is today.

Allies in the common cause of making the world safe for business, the nations of the Old World are tending to develop a new psychology of cooperation to take the place of old jealousies and rivalries.

The second article will deal with Great Britain.

Some Light
on the
Subject

WOULDN'T YOU like a water-jar lamp of amber and shade of sunshine yellow with field daisies on it?

OR A SPANISH green lamp and shade with a gorgeous Argentine parrot?

YOU CAN have it at a very small expense by using a bit of alcohol, a bit of wax and a bit of patience.

COME IN today and the instructor will explain how the shades are made. You will be surprised at the simplicity and beauty of the work.

NOTICE TO MOVERS

If you are moving, or expect to, do not fail to call Walnut 6565, ask for city circulation department, and have The Constitution changed to your new address. Give your old address and state last day you desire The Constitution left there, then give your new address complete and state first day you desire the paper at your new address, and it will be there. Be sure to either phone or write change address instructions.

Supremacy of Morning Paper

The average person wants his morning newspaper the first thing every morning, and feels lost without it. He wants to know what has happened over the world while he has been asleep. He knows, if he is any sort of an analyst, that the morning paper has first call on 75% of all the news that breaks over the world, and 90% of the news that happens locally.

The morning paper publishes first all the news that comes from noon until after midnight, and it is still news when it reaches the reader.

Give The Constitution the proper change instructions, and you will not miss a single copy of your morning paper.

INTRODUCE NEW CADILLAC TODAY

Introduction of the new Cadillac today comes as the crowning achievement of the company's manufacture of quality motor cars during a quarter century. It is also the third outstanding achievement of the company's silver anniversary year.

Less than a year ago, in the showrooms of its distributors and dealers throughout the country, the organization carried on a nation-wide salon, presenting a manufacturing program of 50 body types and styles and 500 color and upholstery combinations—the most extensive program ever undertaken by the manufacturer of any individual car. This was followed in March of this year by the introduction of the LaSalle, companion car to Cadillac—a car which in its first six months has established a sales record surpassing that of any new car in its price class during its first six months of production.

The entire history of the company has been punctuated by pioneering achievements and engineering accomplishments of outstanding importance to the industry. They become doubly significant in view of two facts. The company has always produced a quality product, and since the introduction of its V-type, eight-cylinder engine in 1914 its production of cars has surpassed in volume the production of all other cars in its price range or above.

Record of Growth.
These accomplishments of recent years have been preceded by a record of sturdy growth since the beginning of the industry.

The first Cadillac was produced in September, 1902—the original open-top car with its power plant lying athwart the chassis beneath the seat, to be started by hand-cranking at the side.

It had the usual leather fenders of the day, and it driving were to be done at night, kerosene headlamps and tail lamp of brass could be purchased as extra equipment. For its time, this car had a phenomenal production record. With improvements installed from time to time, its manufacture was continuous for three years, and its production reached nearly 20,000 cars. Many of them are still in service.

While improved single-cylinder cars continued to be produced through 1908, the company's first four-cylinder car was introduced in 1905, rapidly improved and soon became a leader.

Won Dewar Trophy.
In 1908 it was entered in competition for and won the Dewar trophy, offered by the Royal Automobile club, of London, England, for the most important contribution of the year to the automobile industry. The prize was awarded to Cadillac on the basis of

standardization in manufacture. The car had achieved complete interchangeability of parts.

That its parts were manufactured with such close precision that each part was an exact duplicate of every other part of the same kind and could be interchanged without hand-fitting. Such exactness in manufacture was new to the industry at that time, and won for the car the name of "Standard of the World."

In 1912, one of Cadillac's most notable achievements was the development of a complete system of electric lighting, starting and ignition. For this it was again awarded the Dewar trophy, thus becoming not only the one American car to win the famous British honor, but the only car in the world ever to win it twice.

In 1914 Cadillac brought out the first V-type, 90-degree eight-cylinder car in America—the basic forerunner of all the Cadillacs which have succeeded it. It achieved instantaneous success. It started a new era in the automobile industry and gave motor-dom a new high standard of comparison for fine motor car performance.

"World War Car."

In 1917 was produced the Cadillac type 57, the "world war car," which made it familiar to citizens of France throughout the entire war area. Because of its sturdiness and dependability and performance, it was selected as the official seven-passenger touring car of the United States army, and many of these same cars after use by the army, at home and abroad, are still in service. There is one fleet of more than 30, each of which has a mileage record of over 300,000 miles.

In September of 1923, Cadillac passed another epochal milestone in its introduction of the V-8. With its V-type engine inherently balanced and free from vibration at all engine speeds, the production of this car solved an engineering problem upon which automotive engineers had been employed for 11 years.

In 1925 the company produced a new 90-degree, eight-cylinder Cadillac, the complete embodiment of all the organization had learned through its years. An outstanding innovation in this car was a method for the prevention of crankcase dilution, known as the Cadillac system of crankcase ventilation. In addition, the model was characterized by more beautiful lines, livelier performance and greater power. The later development of 50 body types and styles and 500 color combinations on this model foreshadowed trends in body design and colors which have only today reached their climax in the car which is now being presented.

MAJOR ROY ATWOOD NEW C.M.T.C. HEAD IN 4TH CORPS AREA

Major Roy S. Atwood, coast artillery corps, has reported at fourth corps area headquarters and will have immediate charge of all matters pertaining to civilian military training camps.

Major Atwood is a graduate of Ohio Northern university, in the class of 1908, and has recently completed the course at the Command and General Staff school at Fort Leavenworth, Kansas. He is at present looking for a home in Atlanta for the period of his duty at fourth corps area headquarters.

LEGION WILL ELECT NEW OFFICERS TODAY

Atlanta post of the American Legion will meet in the chamber of commerce at 8 o'clock Friday night to elect new officers for the next year.

Present officers, whose terms expire with the Friday meeting, are Commander Frank Kempton, elected last summer to succeed Asa Warren Candler, who resigned to accept leadership of the department of Georgia; Senior Vice Commander D'Arcy Pearce, Junior Vice Commander Charles E. DuPre, B. F. Gambrell, chairman of the executive committee. The weekly luncheon of the post will be held in the Henry Grady hotel at 12:30 o'clock Friday afternoon with a special program of entertainment sponsored by the Forty and Eight, social organization of the legion, under chairmanship of Harry Wallerstein.

Miss Margaret Mooring, of the Mooring School of Dance Arts, at 305 MacKee building, will be in charge of the amusements, presenting Miss Maxine Judd and Miss Floy Durlap in song and piano numbers; Miss Patricia Sanders, former ballet favorite of the Municipal Light Opera company, in a dance specialty, and Marcus Bartlett in piano recital.

The total membership of the legion has been built up to nearly 1,400 this year, the largest in the state since the legion was organized in Atlanta post. Commander Kempton urged all members to attend the final luncheon meeting of the present administration and the final business session and election Friday night.

PULLMAN CO. METHODS TOLD SAFETY COUNCIL

Harry Guilbert, of Chicago, director of industrial safety for the Pullman company, was the principal speaker at the regular meeting of the Atlanta safety council, held Wednesday. Mr. Guilbert spoke on the use of goggles in the industrial plants operated by his company. He told of the manner in which these goggles protect the eyes of employees and stated that the Atlanta plant of the Pullman company is equipped 100 per cent with goggles and that no visitors were permitted to walk through the plant unless they wore similar protection.

Members of the Atlanta staff of the Pullman company were guests of the council. They were headed by F. H. Geiger, general manager, and E. A. Camp, head of the Atlanta division.

STRONG TEMPLOR FELT IN WIDE JAP AREA

Tokyo, September 7.—(AP)—A strong earthquake was felt over a wide area in central Japan at 7:33 o'clock this morning. It lasted several minutes. No reports of casualties or damage have been received.

Dolores Del Rio Former Mexican Society Leader

Dolores Del Rio, whose fiery and vivacious impersonation of Charmaigne is such an entertaining feature of "What Price Glory," showing this week at the Erlanger theater, has the

DOLORES DEL RIO.

unique distinction among moving picture actresses of starting her career at the top of the ladder. The role of Charmaigne is not only her first important part, but is only the third one she has filled since she first went to Hollywood.

Miss Del Rio was born in Durango, Mexico, the daughter of Don Juan Asunsolo, one of Mexico's wealthiest hacendados. As the daughter of such an important family she was entitled to and enjoyed a prominent place in Mexican society. She was educated in St. Joseph's, the French convent in Mexico City, and had also studied and traveled widely in Europe when she married Don Jaime Del Rio, member of the Mexican diplomatic corps. She had settled down to the life of a society leader in her native country when she and her husband had their plans upset by Edward G. Robinson, who was then a director who, during a visit to their home with his wife, induced them to go to Hollywood for the purpose of making a picture.

That was in September of 1925. Her screen test was perfect and she was immediately given small "bits" for technical experience. One month later she was given an important role in "Joanna." Immediately afterward she was given the feminine lead in "Pals First," which was shown on Broadway last summer. Exactly six months after her arrival at Hollywood she had cast as Charmaigne—a remarkable leap, even for filmdom, the realm of miracles.

Even before "What Price Glory" was finished, Fox executives realized that she had gained a firm footing as a star and they lost no time in signing her in other stellar roles. She will be seen as the star for Fox in "Upstream" and in the title role of that company's forthcoming edition of "Carmen," which is now being heralded as a million dollar production.

WAYNE WHEELER WILL REST TODAY BY SIDE OF WIFE

Columbus, O., September 7.—(AP)—Wayne B. Wheeler, general counsel for the Anti-Saloon league, will be buried here tomorrow afternoon by his co-workers in the church and the cause of prohibition. His body will be laid to rest in Greenlawn cemetery by the side of his wife who met tragic death at the Wheeler summer home at Little Pointe, Mich., a few weeks ago.

Among the honorary pallbearers will be Gov. A. V. Donahay, of Ohio; former Gov. Richard Yates, of Illinois; Col. Patrick H. Callahan, of Louisville; Mayor James J. Thomas, of Columbus, and all members of the national executive committee of the Anti-Saloon league and state superintendents who are here attending. The tri-conference of the Methodist Episcopal church in session in Delaware will send a committee to represent the three conferences.

Active pallbearers, though not announced, are expected to be high officials of the Anti-Saloon league with whom Wheeler held close personal friendship and with whom he was most closely associated in his work. The Rev. W. A. Morgan, of Chicago, will assist in the conduct of the funeral service, which will be in charge of the Rev. A. G. Shattam, pastor of the Central Methodist church where the services will be held at 2 o'clock.

Police Group To Meet.

The regular monthly meeting of the Atlanta Police Relief association will be held at 3 o'clock this afternoon. H. D. Sibley is president and J. M. Austin is secretary.

FOR INFLAMED BREATHING TUBES

Try Dr. Blosser's Medical Cigarettes in the Next Attack

Nasal catarrh is not only disagreeable and offensive, but it will lead to serious trouble. That inflamed condition of the mucous membranes of the air passages of the head, nose and throat may spread to the point where it is incurable and a danger to life.

Dr. Blosser's Cigarettes are a composed of medicinal herbs, flowers and berries. The warm smoke vapor is inhaled into the affected air passages and will go where sprays, douches and salves cannot reach. They contain no tobacco or cubes, and being harmless, are used by children, as well as adults.

If you suffer from any catarrhal trouble, plain nasal catarrh, catarrhal deafness, hay fever, asthma, bronchial irritation, or are subject to frequent colds, get from any druggist a convenient package of Dr. Blosser's Cigarettes, and prove for yourself their pleasant, beneficial effects.—(adv.)

I. C. C. EXAMINERS IN HEARING HERE

A general investigation of freight rates on cottonseed products, including hulls, meal, cake and vegetable oils, got under way at the Baltimore hotel Wednesday when a hearing opened before two Interstate Commerce commission examiners from Washington, sitting with railroad commissioners from Georgia, North and South Carolina, Mississippi and Texas.

Although ten days has been allotted to the hearing, it should be completed not later than next Tuesday, officials believe. Only the subjects will be heard here, while a showing by the railroads involved will be made at some future date. The Atlanta conference is one of a series to be held soon in various affected states, and the next is scheduled for September 19 at Memphis, Tenn., with others to follow in Texas and Mississippi.

Admission of testimony by representatives of the Southern Cotton Oil company, which operates large plants in Augusta and Savannah from a New Orleans headquarters, consumed the greater part of Wednesday's hearing. It is understood that some of the issues the vegetable oil refiners in America, among them Proctor and Gamble, Swift and company and Armour and company, are interested in a general review of rates governing crude oil products. All of these companies, and many smaller ones are represented at the conference.

C. A. STANTON PLANS FARM SETTLEMENT AID

Charles A. Stanton, president of the Agricultural Appraisal company, with offices in Atlanta, New York and Columbus, Ohio, returned to Atlanta Wednesday from New York, where he has been conferring with eastern bankers about his proposed \$100,000,000 first mortgage bond issue to be underwritten by the Farmers Bond and Mortgage company for the development and settlement of small ready-to-operate farms in the state of Georgia.

When interviewed by a representative of The Constitution Wednesday night, Mr. Stanton said, "If the bankers and land owners in Georgia will support me we will soon have a business organization established in Georgia that will solve the farm land problem for all time to come. There is an opportunity in this state for doing something big and worthwhile in farm improvement, not only for Georgia but for the entire south. I have known it all the time and that is the reason why I have been in your state for the past three years doing all I can to get your bankers and land owners to understand the importance of organizing county land companies."

Mr. Stanton's plan calls for the organization of 25 county land companies distributed throughout the state. All these land companies are to operate under a uniform plan for the development and settlement of small improved farms and to cooperate in a direct marketing system that will insure the business success of the settlers who buy farms on the long-time payment plan. Each land company will take over 16,000 acres of selected farm land, making a total of 400,000 acres that will be taken over to secure the \$100,000,000 bond issue.

The plan calls for scientific appraisals, insured titles, a 20-year payment plan, a low rate of interest, the regulation of production, efficient methods of marketing and all the things required for the practical farming of the land.

ACCIDENTAL SHOT, CORONER'S VERDICT IN COHEN DEATH

A coroner's inquest Wednesday over the body of Ben S. Cohen, 36, a pawnbroker at 76 Decatur street, found that death resulted Tuesday from an accidental shot inflicted by a pistol in the hands of Peter Crisaris, 19, a customer.

After the accident Crisaris carried Cohen next door, summoned an ambulance and reported to police. He was released after an investigation.

Cohen is survived by his wife, three sons, Bernard, Abner and Joe Cohen; a daughter, Jean; a sister, Mrs. E. H. Liljman, and a brother, S. J. Cohen.

Police Start Search For \$3,000 Bar Pin Lost by Mrs. Shedden

Search for the diamond-studded bar pin of platinum, reported by Mrs. R. F. Shedden, prominent society matron of 1279 Peachtree street, to have been lost or stolen, was begun by police Wednesday. The pin was valued at \$3,000 in addition to the sentiment attached to it as a family heirloom.

Mrs. Shedden and her daughter, Mrs. R. L. Foreman, Jr., were assisting the family of R. L. Foreman, Sr., in moving from their apartment at the Biltmore to an apartment building at Fourteenth and Peachtree streets, when the bar pin was lost. The valuable jewel was lost while packing, or fell into the street en route to the apartment, Mrs. Shedden believes.

6,500 MAY ATTEND SACRED HARP MEET

More than 6,500 persons are expected to attend the twenty-third annual session of the United Sacred Harp Musical association, J. S. James division, which convenes at the Auditorium-Armory on September 9 for a three-day convention.

The James division of the organization comprises all of the southern states and the association has met at the auditorium since the year 1911. The public is cordially invited. The association members use the original Sacred Harp song book.

AUSTIN WILL SING AT JAYCEE LUNCHEON

An address by F. A. Wilson-Lawrenson, president of the Community center, and several songs by Roy Austin, noted singer, will feature the weekly luncheon at 12:15 o'clock of the Junior Chamber of Commerce in Hall No. 2, chamber building.

Roy LeCraw will be in charge of the program.

Plea of Carroll Not Considered By Parole Board

Plea for parole of Earl Carroll, noted Broadway revue producer, was not among those considered by the federal parole board which met Wednesday morning at the Atlanta federal penitentiary, following the return of Warden John W. Snook from the Pacific coast.

Under a new rule of the department of justice, parole applications cannot be considered before one-third of the imposed sentence expires unless this period is concluded during the current month in which the board has a regular meeting. Warden Snook explained.

CITY WINS IN WALNUT OBSTRUCTION CASE

The city of Atlanta was released of liability for an alleged obstruction at Walnut street, at the intersection of Kennedy, in an opinion handed down Wednesday by the Georgia supreme court.

In the same decision a new trial was ordered on injunction proceedings filed by Linton Dennis against Miss D. S. Howell and John F. Green, which was decided in favor of the defendants in Fulton superior court. The record alleges that a 20-foot jog on the east side of the intersection resulted from an error made by the Atlanta, Birmingham and Atlantic railroad in locating a bridge pier or support out in the street. Traffic was diverted because of the jog, it was charged, and the defendants attempted to erect a storehouse and building on the same line as the bridge pier. Dennis sought to enjoin the erection of the building on the grounds that the diversion of traffic would take 20 feet off of property owned by him on the west side of the street. Dennis made the city of Atlanta a party to the action, claiming that the city was obligated to prevent the obstruction of streets, but the lower court sustained a demurrer filed by the city, and the supreme court upheld this portion of the verdict.

Slayers of Postman Must Serve Sentence, Says Supreme Court

The life sentence meted Arthur Alexander, one of six men convicted and sentenced to life imprisonment in connection with the murder of James A. Langston, a rural mail carrier, 15 miles from Fairburn, on October 28, 1923, was upheld by the state supreme court Wednesday.

Other defendants receiving the penalty were Melvin Brown, Rainey Cuthbert, Melvin Whitman, Oscar Sutton and Ora Whittle. Charlie and John Waller were given lesser sentences following their conviction as accessories before the fact in connection with the slaying. Evidence at the trial indicated that the men had intended to ambush a stool pigeon believed to have spied on their alleged hijack operations. Langston was supposed to have been slain through mistaken identity.

Agnes Scott Registrants

The 30th session of Agnes Scott will begin at 10 o'clock Wednesday, September 14th. Day students from Atlanta and Decatur should register and be classified on Monday, September 12th, if possible. Evening students should report on September 13th. The classification hours are from 9 to 12 and from 2 to 5 on the days mentioned. For further information call THE REGISTRAR, DEARBORN 0070.

Red itching blisters on baby's face healed by Resinol

Philadelphia, Pa., Jan. 19:—"My baby had eczema for three months and nothing seemed to do him any good until I tried your products. His cheeks were red and covered with blisters, and the itching was so annoying that he could not sleep. After reading your ad in the paper I purchased a jar of Resinol Ointment and a cake of Resinol Soap. Only a few applications stopped the itching entirely and within a week the redness was gone and his skin practically clear. Your ointment is real wonderful and I will praise it to everyone." (Signed) Charles Gear, 1004 Mount Vernon.

ARE PIMPLES AND BLOTCHES DISGUSTING YOUR FRIENDS?

Why jeopardize social and business friendships by appearing in public with a face covered with pimples, blotches or other skin infections? Nothing is so appealing as a clear, healthy skin free of all blemishes, and the person who ignores that fact often becomes unpopular. Skin trouble is due to impurities in the blood and White Ointment, used according to directions, is pleasant and effective. For best results use Black and White Skin Soap with Black and White Ointment. All dealers sell them at small cost.

Put it up to Your Willard Battery man

He'll take the responsibility that the useful life of your battery is not shortened from neglect if you'll visit him at regular intervals. He's pleasing some mighty particular people.

General Motors presents

The New CADILLAC

General Motors was organized in the belief that a group of companies, working together in the same family, should be able to serve the public better than if they were separated.

Is this true?

The best answer is to contrast the Chevrolet, Oldsmobile and Oakland of today with the models of five years ago.

Add Pontiac.

Then add the new Buick.

And LaSalle.

Each of these was an achievement; but one thing remained. Cadillac had been always a synonym for perfection in the fine car field. Could anything be done to improve Cadillac?

General Motors decided that something could be done—something as radically different as the creation of LaSalle. We invite you this week to go to any Cadillac showroom and see the result.

Atlanta and Fulton County Battle Army of Mosquitoes

With the advent of September—generally considered the worst mosquito month in the year because of the usual deadly rains—Atlanta and Fulton county are undergoing one of the worst plagues of the blood-thirsty little pests in their history.

Reports from all parts of the city are that the stinging hordes are flying everywhere, making shady porches unlivable and penetrating wire netting screens in such numbers as to seriously interfere with sleep. The same situation is true with reference to suburban and county sections, particularly in the vicinity of uncovered streams, which are at low water stage.

City sewers and low places, which have collected and held stagnant water, as well as tin cans and vessels of all kinds in back yards are breeding the disease-carrying insects, and the same situation is true with reference to the county.

Children are reported covered with sores caused by infection of mosquito bites in many instances, and the old-fashioned netting has been employed generally in their defense, it is reported.

Around streams nearby the city

WEAVER DECISION SET FOR SATURDAY

Birmingham, Ala., September 7.—(AP)—Dr. R. W. Weaver, president of Mercer university, of Macon, Ga., said here today that he had not yet decided whether he will accept the post of corresponding secretary of the educational board of the southern Baptist convention to which he was elected several weeks ago.

He will announce his decision Saturday in Macon, he said.

Dr. Weaver attended an executive session of the national board here today at which A. B. Conger, of Bainbridge, Ga., representing the board of trustees of Mercer university spoke in favor of Dr. Weaver retaining his present position as executive head of Mercer.

INDIANA WRECK TAKES 3 LIVES

Evansville, Ind., September 7.—(AP) Four persons are known to have been killed and 15 others were injured, some probably fatally, when an interurban car coming from the Dade Park race track sped through an open switch and crashed into three box-cars loaded with brick on a siding.

The dead are:
William Tiller, farmer.
Chester Brown, motorman of interurban.
Max Meyers, Evansville.

Included in the injured were many from Kentucky and Indiana who were here for the racing meet.

The car was traveling at a speed of about forty miles an hour when suddenly it swerved from the main line into the siding. It whirled down the track about 150 yards before crashing head-on into the box cars.

Those seated nearest the front of the car were the most seriously injured, many sustaining broken bones and severe cuts about the face.

Every seat in the car was torn from the floor, and passengers were piled in a mass at the forward end. Out of the mass the few able to extricate themselves pulled fellow passengers from the wreckage and administered first aid to those seriously injured.

Because of the tangled wreckage and piles of brick thrown from the loaded freight cars, rescue work was slow.

Hundreds of automobiles, returning from the race track, made it difficult for ambulances and volunteers driving private cars to bear the victims away from the scene and to hospitals.

A special car sent to the wreck by the traction company, was hurriedly converted into a relief car and rushed here with many of the injured.

Included in the list of injured were R. T. Caddy, Calhoun, Ill.; John Young, Denver, Colo.; Thomas Brannon, Detroit, and Edna White, of Indianapolis.

It is believed at least four of the injured will die.

Every available physician in the city was summoned to the Walker hospital where a majority of the injured were taken.

Otto Lloyd, block lightman on the line, who saw the crash, declared that the switch was set for the main line immediately before the car approached. He was unable to explain why it left the main track.

The car was filled beyond its capacity, and those nearest the front were most seriously hurt. Practically every one on the car was injured.

Besides the motorman, who was killed almost instantly, the others who died also were seated near the front of the car.

Max Lowe, Vanderburgh county coroner, has begun an investigation to fix responsibility for the wreck. Several witnesses questioned by him declared that Otto Lloyd, the block light guard, admitted he had thrown the switch but did not realize what he had done until the car had bowled past him.

The company officials, however, maintained a rigid silence.

They refused to comment on stories from victims of the crash that the brakes were unable to stop the car although 60 yards separated it from the string of box cars when it hit the open switch.

The car was an old model used by the company, it was stated, but was equipped with air brakes and all modern safety appliances.

The car was the first to leave the track after the races were over. Hundreds clamored to get aboard but only about 75 could be accommodated.

Grocers Urged to Organize By Attorney Edgar Watkins

Advocating a strong national organization of wholesale and retail food dealers in order that they may command common privileges with other big businesses of the country, Edgar Watkins, prominent Atlanta attorney and general counsel for the American Wholesale Grocers' association, Wednesday night addressed the annual banquet of the Georgia Retail Food Dealers' association.

The dinner was held at the Henry Grady hotel and was marked by presentation of state officials, directors, delegations from a number of cities and an entertainment program sponsored by the American Bakeries company. Dancing was participated in later.

In his address Mr. Watkins scored the general apathy of business men to engage in affairs of government and pointed out how other commercial interests had gained privileges by bringing their influence to bear on lawmakers to assure fair profits.

"What you retail grocers need," he declared, "is a strong organization for the retail grocer under present conditions is not making a fair profit. I believe the best thing for you is to conduct your business with a consideration of the price-cutting tactics of your competitor, and demand a reasonable return on your labor and your investment."

Mr. Watkins praised the re-sale law of Canada and stated that he believed it to be only fair to the manufacturer that he should protect his brands by fixing the price at which the retailer should sell his product. He also dealt with price-fixing in relation to the anti-trust law, and pointed out that while the retailer is powerless to fix a general price on his commodity,

EX-BANK CASHIER INDICTED AT DECATUR

Decatur, Ga., September 7.—(Special).—William I. Jenkins, former cashier of the East Atlanta bank, was indicted here today by the DeKalb county grand jury on a charge of having embezzled \$14,290 of the bank's funds. A warrant for his arrest was issued on August 9 after the discovery of the alleged shortage by Dr. E. F. Fincher, president of the bank.

Jenkins is at liberty on \$10,000 bond. His case is expected to be tried in superior court next week.

W. H. Johnson was also indicted today charged with the theft of \$276 from the Georgia railroad depot at Decatur. He is out on bond.

BLIND CHILDREN'S CLASS TO BE HELD

A class for blind children, as a part of the public school system of Atlanta has been in successful operation for five years. It offers, as nearly as possible, the same work that

is done in the regular grades. There is no charge for tuition.

Any child to be enrolled must be registered in the usual way at the school administration building on Walker street. Any person knowing of a child that should be enrolled but is not, is requested to communicate with the teacher of this class, J. J. Childs, phone WE 2106.

WORLD'S PRAYER UNION TO MEET IN ATLANTA

The state meeting of the world's prayer union will be held in Atlanta, September 10 to 27 in the chapel of the Holmes institute. This meeting is the second of its kind, the first being held in Waco, Texas, in April, 1927.

The purpose of the meeting is to organize daily prayer unions in all colleges, universities, schools, churches, secret orders and other organizations. The organization is sponsored by wife of Bishop W. D. Johnson, of Texas, one of the bishops of the African Methodist Episcopal church and a leading colored religious worker.

The program will be featured by prayer services, addresses by leading colored educators and ministers.

Music will be furnished by the church choir of the city and students of the Holmes institute.

Lakewood Dance Winners To Get Prizes Tonight

Atlanta couples will vie again for valuable prizes at the new dance pavilion at Lakewood park in the elimination contest to select Atlanta's most graceful and poised couple, it was announced Wednesday night by officials of the Lakeside Amusement corporation, lessees of the hall.

Three couples will be selected by four judges to compete Saturday night with six other couples selected this week for the week's winners. The couple which emerges from the week's contest will be eligible to compete on September 24 for the championship.

Judges are Miss Anne Fidler, Harold Cook, J. W. Sutton and J. W. Poole, all leading Atlanta dance instructors.

R. L. HENRY NAMED FOREIGN VETERAN HEAD IN ATLANTA

R. L. Henry, prominently identified in veteran circles of the city, was unanimously elected commander of the Greater Atlanta Post, No. 1, of the Veterans of Foreign Wars, at a meeting of the organization Wednesday night at the chamber building.

Henry, who has been in the service for several months has served as a member of the board of trustees. W. W. Roberts was named officer of the day.

The following committee was appointed to cooperate with other committees in arranging for the entertainment and reception of Colonel Charles A. Lindbergh, noted trans-Atlantic non-stop flier: H. H. Bush, Sam J. Shoglow, M. G. Fitzhugh and Floyd Fausett. Lindbergh has been elected an honorary member of the post.

JUDGE JENKINS TALKS BEFORE BURNS CLUB

Judge W. Frank Jenkins, Judge Richard P. Russell, of the appellate courts of Georgia, James R. Nevin and Dr. W. F. Melton were principal speakers Wednesday night at the regular monthly meeting of the Burns Club of Atlanta at the Burns cottage.

A musical program was rendered by the Honolulu trio. A directors meeting preceded the dinner but only routine business was transacted.

NO TIME FOR FRICITION.

There was no justification for the scathing attack on the school contact committee of the Atlanta bond commission by some members of the school board at the stormy Tuesday session.

Fricition always retards action, and frequently completely arrests it. Cooperation and coordination accelerate action.

Politics, dissension, incriminations, etc., have scuttled the board from the inside more than once. Recently there has been more harmony.

The lack of cooperation with the citizens' committee led to more than one embarrassing situation.

Now comes the attack on the committee of the bond commission. For what? Because of the impotence of some of the school board as to an alleged delay of approval of one of the budget sheets.

No time has been sacrificed. No worthy item has been jeopardized.

The bond commission has been up to its shoulders in the work incident to getting the great viaduct and other improvement programs started.

The members are giving of their time liberally and unselfishly in the broad interests of all the citizens. It is not the occasion for criticism, nor for impugning motives without reason.

"Atlanta spirit" is proverbial. That "spirit" is the Atlanta reputation for cooperation—for a unity of purpose in doing big things, and doing them with promptness and vigor.

It is deserved, as it relates to trade and civic activities.

But in the political life of Atlanta there is always somebody nagging, fretting at the bit, obstructing by friction.

The city is on the threshold of an era of unprecedented prosperity. The great bond program is about ready—after too long a delay—to move ahead with the actual construction activities.

It is the time for complete cooperation. It is not the time for bickering.

The blanket proposal of the school board to cut teachers' salaries 5 per cent is also unwarranted. The budget must be adhered to. There must be no more overdrifting.

But there are other economies that can be resorted to besides destroying or curtailing spirit by general salary cuts.

There may be wisdom in salary readjustments. Some teachers perhaps are being paid more than their teaching capacity and efficiency justify. Others perhaps are not getting compensation equal to their abilities.

Salary adjustments can be made in fairness, and savings, if found imperative, can be effected.

But a blanket reduction or a flat percentage basis would be neither just nor economically wise.

ANOTHER TRAGEDY OF THE AIR.

Another giant monoplane, attempting a trans-Atlantic flight has probably found a resting place on the bottom of the sea. And with its disaster another trio of courageous men may have sacrificed their lives to an ambition which the science of long-distance flying has not yet justified.

Following closely upon the tragedy of the St. Raphael in which a daring princess of Europe, of mature age and judgment, flew with her two intrepid aviators, and following the disappearance, either in the Caribbean or the jungles of South America, of the courageous young Georgia aviator, Paul Redfern, the fate of "Old Glory," with Bertrand and Hill as pilots, and Philip Payne, of the New York Daily Mirror, is particularly distressing.

It accentuates again the folly of these trans-oceanic flights with heavily-loaded monoplanes that can be easily be thrown into an inescapable spin, due to cross-currents, and from which a righting is almost impossible.

Again we stress the importance of immediate regulatory rules, by the aviation bureau of the department of commerce, by which such flights—certainly in any ships other than properly-equipped hydroplanes—shall be prohibited.

Human life is too sacred for such ruthless, needless, useless sacrifices. The cause of aviation is being damaged rather than helped.

Already the two great oceans have become graveyards for the pilots of the sky. It is time to call a halt.

PASSING OF A DICTATOR.

The death of Wayne B. Wheeler will be an irreparable blow to the Anti-Saloon league.

able tall spin, due to cross-currents, and from which a righting is almost impossible.

Again we stress the importance of immediate regulatory rules, by the aviation bureau of the department of commerce, by which such flights—certainly in any ships other than properly-equipped hydroplanes—shall be prohibited.

Human life is too sacred for such ruthless, needless, useless sacrifices. The cause of aviation is being damaged rather than helped.

Already the two great oceans have become graveyards for the pilots of the sky. It is time to call a halt.

PASSING OF A DICTATOR.

The death of Wayne B. Wheeler will be an irreparable blow to the Anti-Saloon league.

Despite the great army of lecturers employed by the organization to take up collections and get long-term installment pledges, and despite the state organizations that report to the national organization, the league has been for many years the personal machine of Mr. Wheeler. He dominated it as completely as if it had been his personal property. Indeed he was, largely, the Anti-Saloon league.

The dead league chief was a man of dynamic force, and of a dominating and domineering spirit. He did not hesitate to literally sit in the galleries of congress with his thumbs up or down as signals to members below.

With politicians in the dry states consistently voting "dry," or as Wheeler commanded—even if personally wet, as many of the dry leaders in congress are—he had a political power that no other lobbyist ever had in Washington or perhaps ever will have.

With hundreds of thousands of people throughout the nation contributing monthly to the machine, he had the largest fund with which to carry on his crusades and designs of any lobbyist in Washington.

Although posing as a non-political organization the slush fund investigations conducted by Senator James A. Reed's committee disclosed that the Anti-Saloon league was a despotic political organization.

It had until that time kept its financial affairs as a well-guarded secret.

It developed that hundreds of thousands of dollars had been poured into the Pennsylvania primary contests.

With Wayne B. Wheeler, the driving wheel of the organization, dead, the nation and the cause of prohibition will have been served a useful purpose if the "league" gets out of politics, and returns to its old, original purpose of promoting temperance.

The situation in this country never demanded a great moral force to stand vigorously for sobriety, for the good morals of the young, for the purity and happiness of the home, as today.

The tide of bootleg liquor is rising all the time.

The violations, indulged in literally by millions of people each day, has had the effect of lessening respect for all law. Hence the unprecedented crime wave that is sweeping over the country.

It is well established that morals cannot be legislated into any one. The attempt often has the reverse effect. There is natural rebellion against unreasonable restraint.

The Anti-Saloon league can, by getting politics entirely out of its organization, do a splendid service through its great army of field people, through its state connections, and its following generally in making America a soberer and a more law-abiding nation.

Moral suasion is the remedy to apply, not summary and big-stick tactics.

Years ago, when the whisky traffic was legalized, many organizations were actively enlisted in temperance work.

These organizations appealed to the consciences, and to the higher instincts.

The evils of drink were emphasized. The wisdom of sobriety, for health, for position, for manhood was stressed.

With Volsteadism the system changed. The law was expected to do what moral suasion had for years been doing, and it has not done it.

The liquor situation today stands out with an accusing finger pointed at the failure of the present system.

It is now claimed that only 32 per cent of the people of this country use tooth brushes, but the investigator failed to state what percent uses a sprig of the althea tree to cleanse their teeth.

One-fifth of the population of the United States is now in the public schools, and the other-four-fifths in the school of experience.

If they build motor trucks much larger the railroads will have to face their "Stop, Look and Listen" warning signs down the track.

Some day science will prove just what is in it for a man to sit on top of a flag pole for a week or so.

Tax measures are passed but not enforced.

THE WORLD'S WINDOW

BY PIERRE VAN PAASSEN

Fiction.

It is likely that there will be formed in France, for the protection of authors who are charged with improperly using proper names, an organization similar to that which lately came into existence in England. Its object is to insure writers against suits for damages brought by persons who are or who pretend to be aggrieved by the use of their names as the names of characters in fiction.

Recently a writer devised a sobriquet for a woman crook, only to find he had injured a good woman's reputation. The need of similar service in France is equally great. Many suits have been brought against writers who have not thought of giving offense. One famous case was that of the family of Barthelemy, of Tarragon, against Alphonse Daudet on account of his immortal "Tartarin of Tarascon," where, indeed, the similarity of names seemed to surpass the possibility of mere accident.

Trousers.

The dress shows with their attendant excitement and flurry in the dress-making world have come and gone and the new mode has settled down to the usual building of certain models by foreign buyers and the frantic purchasing by those visitors who must catch the August boats. Perhaps the most striking feature of the opening was the lessening of the number of less indifferent world of the trouser dress. Trousers for women in one form or another have appeared almost every season in the collections of the couturiers who go in for striking bizarre effect. But this year it would seem from the amount of publicity given to the idea that the trousers shall be taken seriously. One wonders if women who today wear trousers so much for sport and as a demand for fashion when formal dress is involved. However one knows there is no knowing about women, and even conservative establishments showed several adaptations of the idea. Most designers sought to disguise the trouser, but others came out quite frankly with them.

Saving the Pictures.

An interesting questionnaire has been submitted by "Comedica," which attends to the arts more closely than to politics, finance, or the latest movie, to men eminent as amateurs or critics of paintings. They are asked to say which three pictures they would save from destruction in some general disaster. Answers already received throw an interesting light on French taste among those specially qualified to speak. It is almost incredible that Delacroix heads the list. Watteau is a good second, his "Embarquement pour Cytheree," being the picture selected by prominent Frenchmen. Most of those who have so far replied devote themselves to the old masters, though, through care for their reputations, selecting the less known masterpieces, but the only modern selected is Fougere, an ear-ripping Japanese, whose portrait of Madame de Noailles, fashionable, and moreover, admirable, has been twice mentioned.

The Flemish school was seldom represented in this typical French choice, ancient Italians not often. Raphael only once, and twice, Rembrandt was mentioned. One artist modestly mentioned a classic artist, "A Painting by Van Dongen," and a painting by himself.

The World and All

BY CHARLES R. DRISCOLL

POWER.

This is the time of year when thousands of young men and boys are considering very seriously what their school work is going to prepare them for. Many are ready to enter high school or college, or are looking forward another year's work in school, without having made a decision as to their life work.

There is not necessarily anything disastrous for a student in the circumstance that he has not selected his field of labor. Generally speaking, the student in high school or college is looking ahead to some definite life work in which he takes a keen interest.

If I had a boy of high school age who had a marked liking for mathematics and mechanics, I would encourage him to look toward a career in engineering.

Much of the great work of the world, particularly in North and South America, is going to be done by the hands of three or four generations of engineers.

Railroads are not going out of date for another two hundred years, despite the growth of aerial navigation in the immediate future. There will be more railroads to construct, and many tunnels and bridges will be needed to make long routes shorter and to reduce expensive grades.

But the production and distribution of electric power is the obvious and immediate job of the next generation of power engineers.

We have only begun to use electricity intelligently and in quantities. We have only scratched the surface of our power resources.

Yesterday I stood upon high Cape Bonifant and watched one of the most prodigiously doing nothing. It was the tide of the Bay of Fundy, which has the highest tides in the world, running through a narrow channel, perhaps a mile and a half wide, into the great Minas basin. Again I saw this Fundy tide boiling and roaring through Digby Gap into Annapolis basin.

For centuries there has been talk of setting these tides to work for man. Engineers of the next generation will harness some of that unmeasured energy and get electricity out of it.

One picturesque Fundy tide pours into the great basins for six hours, and then streams out again for six hours. A continuous plunging of giant power, through narrow channels, when the engineering work has been done, Fundy tides ought to furnish enough electricity to run all the railway trains in northern and eastern North America.

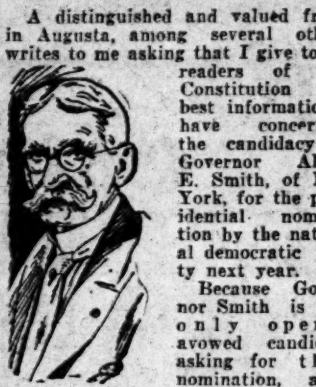

Muscle Shoals is known to most Americans as a source of power soon to be put to use. But when Muscle Shoals begins to send out its main strength throughout the south, it will only make us hungry for more electricity.

If you like mathematics and mechanics, young man, you might do worse than to think seriously of engineering.

LOOKING AND LISTENING

BY SAM W. SMALL

Food for the Curiosity of Inquirers About Al Smith and His Boom

A distinguished and valued friend in Boston among several others writes to me asking that I give to the readers of The Constitution the best information I have concerning the candidacy of Governor Alfred E. Smith, of New York, for the presidential nomination by the national democratic party next year.

Because Governor Smith is the only openly avowed candidate asking for that nomination, and because it is undeniable that he has the power to wreck the party's chances to win the election in 1928, he has become the most prominent and debatable character in the party ranks.

Only a fourth of the party since I have known its affairs for 60 years past, has had such power over its fortunes in the national field. It is a privilege to be conversant with every angle and adjunct of state administration. He has forced upon the republican assemblies many valuable reforms and suggested to the people new methods of state business conduct that they have adopted.

That Smith is thoroughly honest and devoted to the public interest is accepted in New York by friends and foes alike, and hence his great popularity as a state administrator.

But when discussion turns to his qualifications for national and international statesmanship, it is equally as freely recognized, except by his most ardent henchmen, that Governor Smith is woefully deficient.

He has had no experience in the discussion or conduct of national matters. Evidently his studies and reading have been confined to the political economy and diplomacy. There is no record of his utterances, either by tongue or pen, that give assurance of his ability to deal with the skill and public security the profounder issues of general politics.

The Arguments for Smith.

Those who are ardently and assiduously pressing for the nomination of Governor Smith present three lines of argument in his favor.

In the first place they put his ability as a legislator, and his record as governor of New York and enough other eastern states as, combined with the votes of the solid south, would assure him the nomination of the party.

There are many well-informed democrats who are sure that fear is well founded.

Another claim for Smith is that a majority of the voters of America are opposed to national prohibition and that the money and voting power of the "wets" all over the nation would give him a solid vote to carry the election. There is no doubt that the "wets" all over the nation would give him a solid vote to carry the election. There is no doubt that the "wets" all over the nation would give him a solid vote to carry the election.

In the third place, it is argued that the Catholics of the nation feel that they should vote for a Catholic president. There are many well-informed democrats who are sure that fear is well founded.

Now, these above recited particulars comprise my present information about Governor Smith and his boom. Take them as you will.

YOUR BOY AND YOUR GIRL

BY ARTHUR DEAN, SC. D.

POWER.

This mother has the administrative instinct. She thinks her problems (that is, the laundry bill, and the household budget) are her own. She does not need to be "sold" to the country. Perhaps President Coolidge is the only man equally known to the people as a domestic economist.

Personally Governor Smith is an exceedingly attractive character. He is proud of the fact that he was born on the "East Side" of New York City. Inhabited principally by the strong

as I employed help with the housework I paid the housekeepers' wages, but I did not pay the laundry bill, and I furnished my own coal. My income increases I expect to share with other of the expenses. But if the children can help in little ways so that I do not have to pay for a housekeeper, I can afford to give them a larger allowance. In that case I want them to feel it is theirs because they have earned it. I want them to have the habit of expecting pay for every little helpful act anyone might ask them to perform? Though there are differences in ages, should they receive the same amount as an allowance?

"With heart-felt gratitude for any help you might give me, I am sure that I shall be able to do so."

Knowing the value of money is an education in itself. This value is learned best by earning.

Regular habits of work and study and self-improvement bring results far more intermittent, irregular and spasmodic attempts.

A routine is good for all of us. A certain amount of time assigned each day to certain tasks steadies youth and adults.

Regularly assigned and well accomplished home tasks make for habits of industry and accomplishment.

Something to do is far better medicine than continual bickering, scolding and volleys of don'ts.

I am sending you in your self-addressed envelope recently been completed by the grand lodge of New York state. The total membership of regular lodges in the world is 4,450,000. The English-speaking Masons are 4,150,000, while all others total only 300,000. New York, Pennsylvania, Illinois and England have more than one-fourth of all Masons of the world.

The Masons in the United States gained 65,067 last year. There are 16,475 lodges in this country and 65,067 new members were added, except Kentucky, which lost 4,588.

Georgia has 648 lodges, with a membership of 68,890, and is 15th in rank among the jurisdictions of the entire nation.

A Great Masonic Census. A census of the Masonic fraternity of the world recently been completed by the grand lodge of New York state. The total membership of regular lodges in the world is 4,450,000. The English-speaking Masons are 4,150,000, while all others total only 300,000. New York, Pennsylvania, Illinois and England have more than one-fourth of all Masons of the world.

foreign derived elements of the town. He was brought up "that the sidewalk" and with Irish instinct turned early to politics as a Tammanyite and promptly began to dig himself into popularity and profitable work and elective office.

Possessed of a genial and generous temperament he made many and powerful friends, and they kept him in positions of political influence, so that, after long and useful career as a state legislator, he became a prominent candidate for governor in 1918 and astonished the state by being elected.

He came back with a huge and in 1924 and 1926 ran over his republican opponents with ease; but the republicans managed each time to weight him down with a hostile legislature and many adverse state officials.

A State-Man, Not a Statesman. It is very generally admitted in New York that Smith has made an excellent governor. By long experience in city affairs and in a decade of legislative activity, he has conversed with every angle and adjunct of state administration. He has forced upon the republican assemblies many valuable reforms and suggested to the people new methods of state business conduct that they have adopted.

That Smith is thoroughly honest and devoted to the public interest is accepted in New York by friends and foes alike, and hence his great popularity as a state administrator.

A Great Mason

Bertaud and Hill Called Best in Air Mail Service

New York, September 7.—(United News.)—The names of Lloyd W. Bertaud and James Le Witt Hill, missing at sea in the stricken airplane "Old Glory," early were linked with aviation. As children they became interested in flying and, except for brief intervals in which Hill drifted into other fields only to come back to aviation, both pursued careers in the clouds.

Both are veterans of the New York-Cleveland air mail route. For the past two years as night pilots between New York and Cleveland, Bertaud and Hill have faced fog, storm, mountains, cold, sleet and fundamental problems of aerial navigation.

Both have been lost in fog above the clouds, where no beacon could reach them and with limited gas, slow ships and erratic compasses have found their way to safe landings many times. They felt that such experiences as these qualified them for the daring undertaking of spanning the Atlantic, from New York to Rome.

Bertaud and Hill are rated two of the best pilots America has ever had, and the belief is shared by many that it was engine trouble that brought them down in the ocean.

Must Be Engine.
Anthony H. C. Fokker builder of the monoplane "Old Glory," stated "That the only possible cause of 'Old Glory' landing in the sea was failure of the engine."

"This danger always will be present in all over-water flying with a single engine aircraft," Fokker said. "The Bristol Jupiter engine used in 'Old Glory' is of good reputation and has been through continuous adjustments and improvements for six years."

"The reason it was selected was because there was no other engine of similar horsepower (450 h. p.) on the market which had gone through such a long period of development and practical use."

Bertaud, 31, and Hill, 42, were regarded as complements to each other—the ideal combination for the venture they started. Hill was lean, hard, quiet and studious, and like Clarence Chamberlin, an engineer, as well as a pilot. Bertaud, younger, was more impulsive, skillful, resourceful and daring.

Bertaud was born at Alameda, Calif., in September, 1896. As a 12-year-old boy he aroused the enthusiasm of his playmates by constructing a glider.

Hill was born in Scottsdale, Pa., in 1885. His earliest experience in the air was with a parachute of his own construction, made from his mother's largest tablecloth. The parachute failed to open when Hill jumped with it from the stable roof.

After years of poor health, he qualified as a pilot but found little flying to do and went into the engineering and production end of the aircraft business at Hammond, Ind., where he made a special study of seaplane service.

After two years there Hill took up flying again as a test pilot and instructor. He was an instructor of army pilots during the war. Following this he entered the army service at McCook field, Dayton, Ohio.

In 1924, he entered the air mail service, since he has been flying the night mail from Hialeah, N. J., to Cleveland.

One of the oldest air mail pilots, Hill has more than 5,000 hours in the air to his credit.

Best Flier in the Service.
Bertaud characterized Hill when he announced that Hill had agreed to accompany him in "Old Glory."

Philip A. Payne, 30, managing editor of The New York Mirror, who left with Bertaud and Hill, was William Randolph Hearst's personal representative in handling the details of the flight.

He is a graduate of St. Michael college, Toronto, where he studied to be a chemist. He entered the newspaper work soon after graduation and since has been actively engaged in that field except when he was in France with the Knights of Columbus during the war.

The monoplane's cruising radius was 5,000 miles and its weight, empty, 4,000 pounds. Its total load for the flight was 12,500 pounds. The fuselage was built of light steel tubing and covered with steel fabric with several coats of aluminum paint.

Directly under the forward nose of the ship, the pilot's compartment, with a single control and an extra chair was located. The main gas tank, capacity 82 gallons, was located behind the pilot. By means of a valve, the gas tank could be emptied in 45 seconds. In an emergency landing on water the air-filled tank has a buoyancy equal to two tons and would keep the ship afloat.

Two additional wing tanks had a capacity of 90 gallons each, giving the plane a capacity of 1,720 gallons, which Bertaud and Hill figured would keep them aloft 96 hours and cruise more than 5,000 miles.

LAX INSPECTION BLAMED BY JURY IN BOAT TRAGEDY
Chicago, September 7.—(AP)—A coroner's jury investigating the sinking of the excursion boat Favorite on July 28 in which 27 persons were drowned today returned a verdict laying the accident to lax inspection of the boat.

A jury asked the state's attorney and the United States district attorney to make an investigation with a view to criminal prosecution, but did not recommend any criminal proceedings.

MELLON MAY BACK BOON FOR HUGHES

BY RAYMOND CLAPPER

Washington, September 7.—(United News.)—The appearance of Charles E. Hughes as one of the possible republican candidates is the most important recent political development. A feeling is growing up here that Andrew W. Mellon favors Hughes. If this proves to be the case, it would give the former secretary of state the two largest delegations in the convention, with New York and Pennsylvania behind him, he would be extremely formidable.

Mellon returned from Europe with Hughes and admitted to the fact that he discussed the presidential situation. Mellon indicated the friendliest attitude toward Hughes personally although making no public statement. The impression of those who talked with Mellon today is that he is sympathetic toward Hughes. This feeling is based more on Mellon's general attitude in discussing Hughes rather than on any specific statement. Washington may be wrong as it often is but the feeling here now is that Mellon is pretty well convinced that Hughes would make an ideal candidate.

Mellon attached little importance to his own admission in going to Europe. He expects to be the favorite son probably but indicated that he does not consider himself a candidate.

An alliance between Mellon and Hughes would be a serious blow to Hoover's prospects. Close friends of Hoover have considered that Mellon might be open when Hill jumped with it from the stable roof.

One of the big considerations among politicians in favor of Hughes is the fact that he comes from New York. Many of them see no other candidate who could run so well in New York. Much of Hughes' success is based on the possibility that Smith might be nominated by the democrats. And, conversely, the nomination of Hughes would make Smith much stronger.

The Hughes talk has sprung up here largely because Hughes, when he landed at New York Monday, failed to make a flat statement taking himself out of the situation. His attitude was quite different from what it was before Coolidge's announcement in that he did not this time, as he did before, flatly state he would not accept if nominated.

It sounds like his air opinion here. It sounds like his air opinion here. It sounds like his air opinion here. It sounds like his air opinion here.

Whatever republicans think and say privately, for purposes of publication they are afraid of announcing any alliance at this early date.

"I decline to express myself on the political situation at present," Secretary Mellon said today. And that is about as far as the others are willing to commit themselves at present.

and until it is sighted by some steamer on the ocean, is seen over land or arrives safely on the other side, no word can be expected from it.

Fearing that if the aviators were informed beforehand of the bad news from the Old Glory their confidence in the ship, which was strongly maintained when they entered the plane, would be dampened, local authorities saw fit to withhold the news of the SOS.

In an emergency landing on water the air-filled tank has a buoyancy equal to two tons and would keep the ship afloat.

Two additional wing tanks had a capacity of 90 gallons each, giving the plane a capacity of 1,720 gallons, which Bertaud and Hill figured would keep them aloft 96 hours and cruise more than 5,000 miles.

Bangkok, British India, September 8.—(Thursday)—The Pride of Detroit, which left for Bangkok, Siam, at 6:50 o'clock this morning.

Rangoon, British India, September 7.—(AP)—With another stretch of dangerous flying country behind them, William S. Brock and Edward F. Schlee, in the Pride of Detroit, arrived here from Calcutta at 2:15 p. m. today on their round-the-world flight.

The distance between the two points is 965 miles and the American aviators have now covered 8,695 of their 22,000-mile journey.

In the face of terrific rains and strong cross winds soon after leaving Calcutta early in the morning, the aviators made good progress, their plane averaging 100 miles an hour.

Latest Entrants in Joust With Death

BY RAYMOND CLAPPER

Washington, September 7.—(United News.)—The appearance of Charles E. Hughes as one of the possible republican candidates is the most important recent political development. A feeling is growing up here that Andrew W. Mellon favors Hughes. If this proves to be the case, it would give the former secretary of state the two largest delegations in the convention, with New York and Pennsylvania behind him, he would be extremely formidable.

Mellon returned from Europe with Hughes and admitted to the fact that he discussed the presidential situation. Mellon indicated the friendliest attitude toward Hughes personally although making no public statement. The impression of those who talked with Mellon today is that he is sympathetic toward Hughes. This feeling is based more on Mellon's general attitude in discussing Hughes rather than on any specific statement. Washington may be wrong as it often is but the feeling here now is that Mellon is pretty well convinced that Hughes would make an ideal candidate.

THE GUMPS—THE PLOT THICKENS

They Wouldn't Believe

By Roy Vickers.

SYNOPSIS

On the way to Donald Briery's house for luncheon, Connie Elmore, Donald's fiancée, tells her friend, Olive Weston, that Donald stands a chance of inheriting a half a million from the estate of old Harrowby, a friend of Donald's father.

Olive and Connie share a flat in London. Olive is secretly in love with Donald, but sincerely pleased at Connie's good fortune in winning him.

Sandle and Querk, solicitors handling the Harrowby estate, are crooked and plot to cheat Donald Briery of the fortune by having a spurious heir appear whose claim is prior to Donald's. In the midst of the plotting Augustus Briery, Donald's father, presumed to have died when the Titanic sank, calls on Sandle. Querk suggests to Sandle that he bribe Briery to Harrowby house, and there with the assistance of Querk's tool, Wode, dispossess of Briery.

Connie decides to visit her old nurse, who is now caretaker of Harrowby house. Mrs. Jones is out, but Connie finds the key and lets herself in. She hears strange noises in the library, and going to investigate she sees Mr. Sandle and another man kill Mr. Briery, whom she recognizes from his portrait. Rushing out of the house, Connie stumbles into Mr. Querk. While telling her story Querk pushes the bell and sends a signaller into the library, and Connie asks Querk to open the secret panel in the wall, where she had seen the man place the body. It is empty. Querk accompanies her to the police station, where she tells her story to the police superintendent. Querk intimates that she imagined the scene, and in exasperation Connie goes to see Olive, who believes her story.

Querk requests Connie to come to the superintendent's office, and he presents his alibi, which the police officer accepts. The two lawyers proceed to Wode's office, where old man Wode and his son, the spurious heir, await them. The old man dies just after they walk into the office, and Sandle and Querk leave by the back door. Querk suggests to Sandle that he and Wode transfer the papers from old Turle's clothes to Briery's and bury the latter in Donald's garden.

At a quarter to eleven he was in Bedford Row. Watching his opportunity, he entered the building, paused in the corridor for a moment, and then a skeleton key, admitted himself to Querk's private room—and waited.

"Good morning, Walters! A little bleak, I fear. Ah, well, it would have been positively ungrateful to expect this fine weather to last indefinitely. I miss the grapefruit."

Querk's butler hovered anxiously over him as he sat down to a well-appointed breakfast table in the luxurious dining room of his luxurious flat off Park lane.

"Yes, sir. Cook was especially hoping that you would allow her to make an omelette."

"A very good idea, Walters. Tell the cook I am much obliged for her suggestion."

To his butler-valet, his housemaid, and his cook, Querk was an ideal employer. He appreciated good cookery, was generally grateful for smart and efficient service and he was specially good tempered. It was reported in the kitchen that on this particular morning he was in an even better temper than usual—which was true.

Sandle, certainly, had annoyed him on the previous day. But, then, Sandle's clumsiness had been redeemed by his own astuteness—and that was a pleasing reflection. Sandle was now far more completely in his power—which was again pleasing.

With Wode, on the whole, he was satisfied. Wode was a bit crude, but he had a wonderful nerve and, being relied upon invariably to keep his head and use to the utmost the facilities he possessed. No cleverness had been required to bury the body of Augustus Briery in his son's garden—only a cool head and watchful eye. No cleverness, again, had been required to deceive the tax man and to ought to have been Sandle's job. But Sandle had not a grain of that kind of nerve.

Querk consumed the omelette while he studied in a leisurely manner the financial columns of The Times and pondered on his day's work.

At half past ten, precisely, Walters was waiting in the hall to help him on with his hat and hand him his silk hat, and then to wait with the door of the landaulette open while Querk exchanged a kindly word with his chauffeur.

"I wonder how that poor little Elmore girl has been getting along?" mused the solicitor as the car started. "Very disconcerting when a grown woman realizes that she is the victim of hallucination. Tut-tut-tut! Why, it seems only yesterday that she was a little thing sitting on one's knee pulling out one's watch—how time flies, to be sure!"

Precisely at a quarter to eleven the car drew up in Bedford Row. But this morning the normal routine was disturbed by the fact that a taxi from the opposite direction had also stopped outside Querk's door.

Out of the taxi stepped Connie Elmore. She was dressed in gray, with white at throat and wrists; a little lavender hat was pulled well down over her bright hair. Querk was, as always, impressed by her appearance; even her present pallor and the faint circles under her eyes only enhanced the appeal of her delicate loveliness.

"My dear Miss Elmore, this is indeed a pleasant surprise. But, my dear, you're not looking yourself—not yourself at all! Where are those rosy cheeks?"

"Better watch out, though. Don't want to rile the Old Man."

For Querk he had a fear mingled with reverence. He did not understand the man, but that only increased his respect. His instinct rather than his reasoning power told him

"Folks don't never go crazy about religion if they get out an' practice it instead of studyin' about it so much."

Thursday's Calendar Topped With Philanthropic Meetings

Thursday's calendar deals for the most part with meetings of women's organizations connected with philanthropic work in Atlanta. The Sheltering Arms association members will foregather at the Osgood Sanders nursery this morning at 10:30 o'clock to plan for the care of hundreds of children throughout the year whose mothers are at work in nearby mills and factories, their hearts gladdened with the fact that their babies are being fed and trained by interested workers of the high-est type.

The Sigma Gamma chapter of the Chi Omega fraternity opens its fall social season Thursday with a tea to be given at the home of Misses Elizabeth and Mary Dodd, 205 Peachtree circle. The tea is given in honor of the granting of the Chi Omega charter to the Oglethorpe chapter. The members of the active chapter are Mrs. J. C. Tyler, Theodosia Hunnicutt, Edwina Wray, Yeola Stitt, Elizabeth Patterson, Mary Dodd, Elizabeth Dodd, Jennie Alexander, Helen Norf, Frances Wilcox, Madye Lee Chastain, Louise Moseley, Eloise Tanksley, Evelyn Hollinsworth, Elizabeth Graham, Thyrza Perry and Phoebe Ellis.

Mrs. Smith Makes Request to Atlanta D. A. R.

Mrs. J. W. Smith, regent of Atlanta chapter, D. A. R., requests the members of the chapter, of which Mrs. Charles A. Davis was past regent, to be present on Thursday afternoon, September 8, at 3:30 o'clock at the residence, 1371 Peachtree street, at which hour her funeral occurs.

Mrs. Key Calls Baptist Meeting.

Mrs. James L. Key calls a meeting of the Baptist Hospital auxiliary next Friday morning, September 9, and urges as many as can be present. Several specially important matters to be discussed.

Woman's Bible Class Meets Friday Evening.

The Women's Bible class of Stewart Avenue M. E. church meets with Mrs. R. A. Jones, 910 Stewart avenue, Friday evening, September 9, at 7:30 o'clock.

Mrs. High Issues Card To Georgia Society.

Mrs. Joseph Madison High, president of the Georgia society, Patriots and Founders of America, requests the members to attend the funeral of Mrs. Charles A. Davis on Thursday afternoon, at 3:30 o'clock, 1371 Peachtree street. Mrs. Davis was a prominent member of this organization.

Mrs. Henry Wyatt Honored at Party In Marietta, Ga.

Marietta, Ga., September 7.—Mrs. William Vance will be hostess Saturday afternoon at a bridge party at the Marietta Golf club, in compliment to Mrs. Henry Wyatt, who has recently returned from an extended visit to Henderson, N. C.

Mrs. S. H. Sibley had Miss Gussie Groves will entertain their 42 club at supper Friday evening at the home of Mrs. Sibley on Kennesaw avenue.

The Wednesday Bridge club was entertained this week by Mrs. C. T. Nohr, at her home on Church street.

Mrs. J. H. Hancock, Misses Glenis Hancock, Sarah Patton and Ella Ring motored to Cloudland, Tenn., for the week-end.

Mrs. W. B. Tate and William Hart Sibley are spending several days at Asheville, N. C.

Mr. and Mrs. Aburn Smith, Jr., of Tampa, Fla., are visiting their parents, Mr. and Mrs. Aburn Smith, Sr., on First avenue.

Miss Sadie Sibley is visiting in Monroe, Ga., the guest of Mrs. C. F. Cox. Miss Weldon Sibley returns this week from an extended visit to New York city and The Plains, Va.

Mrs. Sam L. Rambo and children are visiting relatives in south Georgia.

Seminary Sororities Entertain at Tea.

Miss Jane Tway, president of the Phi Pi Sorority, of Washington Seminary, was hostess to members of her organization at her home on Seventeenth street. Other officers who assisted Miss Tway were Misses Boots Walker, vice president; Margaret Arnold, secretary and Katherine Harris, treasurer.

Members of the Pi Pi assembled at the home of Miss Dorothy Raine, president. Misses Hazel Stamps, vice president; Anne Biddle, secretary, and Harriett Wynne, treasurer, presided with the hostess.

Miss Geraldine White, vice president of the O. E. X., entertained her sorority at her home on Peachtree road. Other officers of this club are Misses Hannah Sterne, president; Gates Eckford, secretary, and Ruth Miller, treasurer.

Ben Hill Committee Makes Plans for Fair.

The committee in charge of the Ben Hill Community fair attended the called meeting composed of all the committees from the Fulton county home demonstration clubs, held in the office in the courthouse of the county home demonstration agent Friday, September 2, at 1 o'clock.

The purpose of the meeting was to make plans for the exhibits in canning, cooking and sewing and the carnival to be held in connection with the fair.

The Ben Hill Community fair will be held Wednesday, September 21, from 2:30 to 10 o'clock.

Miss Lucy Tremer, who has been spending the summer in Eatonton, Ga., has returned to Marietta.

Misses Ruth and Ruby Webb attended a week-end house party in Valdosta, Ga.

Mr. and Mrs. Sloan Entertain in Decatur.

Mr. and Mrs. S. L. Sloan, of the Hotel Candler, in Decatur, will entertain Thursday complimentary to the representatives of the Decatur Woman's club and the Decatur chamber of commerce who will assist in receiving at the formal opening of the Candler next Monday evening.

Included among the guests will be the officers and directors of the Community Hotel Corporation of Decatur and their wives; the officers and directors of the chamber of commerce and their wives; the officers and committee chairmen of the Woman's club. The luncheon will be served in the charming main dining room of the Candler. At the conclusion of the affair, plans will be perfected for receiving and entertaining the large number of guests who are expected to attend the reception and dance which will mark the formal opening of the hotel Monday evening.

Mrs. Hal Steed Is Luncheon Hostess.

Miss Florence Underwood was the honor guest at luncheon Wednesday at the Druid Hills Golf club, at which her aunt, Mrs. Hal Steed, was hostess. Miss Margaret Underwood assisted her aunt in entertaining her guests.

Covers were placed for ten close friends of the honor guest, who leaves at an early date for Hollins college, in Hollins, Va.

Mrs. B. R. Beck Gives Luncheon.

Mrs. B. R. Beck was hostess at a luncheon Wednesday at the Henry Grady hotel, followed by a matinee party at the Georgia theater, complementing Miss Sarah Strickland and members of her house party.

Guests included Misses Martha Johnson, Helen Jones, Letty Fleming, Roslyn Moncrief, Julia McLendon, Dorothy Selman, Margaret Selman, Henrietta Noland, Thelma Williams, Sarah Strickland and Sam Ferguson. George Noland and Jim McLendon.

Reception Tonight Honors Scholfields At First Baptist

A reception will be given at the First Baptist church at 8 o'clock Thursday evening in honor of Mr. and Mrs. J. Fred Scholfield, who in future will be actively identified with the work of the church.

Mr. Scholfield has been elected director of music of the church, and will give his full time to the church's activities, assisting in other departments as well as directing the musical program. While Mrs. Scholfield will not be connected in an official capacity, she is an accomplished musician and an active and devoted worker.

Mr. and Mrs. Scholfield came to Atlanta from Birmingham, where, until recently, Mr. Scholfield filled a similar position with the First Baptist church of that city. A large delegation of Mr. and Mrs. Scholfield's Birmingham friends motored to Atlanta to greet them at their first church service last Sunday.

Order of De Molay Holds Annual Dance.

The Atlanta chapter Order of De Molay will hold its annual dance at the Druid Hills Golf club Friday evening, September 9, from 10 until 2 o'clock. The officers of the Atlanta chapter are: Robert S. Looney, master counselor; W. Hal Huey, senior counselor; John L. Garrison, junior counselor; the sponsors for this term are Misses Dorothy Spratt and Anna Hill Price. The social committee includes: Louise D. Rauschenberg, Steve Cottrax and Carlos G. Wilson. Admission is by invitation only.

Sylvan Hills Club Meets With Miss Whitworth.

The Sylvan Hills Girls' club met Friday morning with Miss Dorothy Whitworth on Woodbourne drive.

Members include Misses Elizabeth Cartwright, president; Kathryn Gra-

ham, Dorothy Whitworth; Frances Kreider, Thelma England, Evelyn Kelly, Virginia Boyd, Sara Woods, Mary Elder and Alverda Sedgwick. The younger members who are on the honorary list are Misses Helen Whitworth, Louise Kitchens and Virginia Hays.

Mrs. Clarence Blosser Honors Mr. Jewett.

Mrs. Clarence Blosser entertained on Saturday evening, honoring Pete Jewett, of London, who is a senior at Boston Tech. Guests included Misses Marian Gertman, Helen Jackson and Mary Hudson, of Newnan.

"The Store of Dependability" The Cup That Bobby Won

THE magnificent gold cup, emblematic of the Amateur Golf Championship, that Bobby Jones won at Minikahda will be on exhibition in our windows all of the coming week. Apart from the sentimental value attached to this trophy, it is one of the outstanding examples of the goldsmith's craft and of great intrinsic value.

RICH'S THRIFT THURSDAY

Miss Conley Weds Mr. Good At Lovely Church Ceremony

Characterized by beauty and simplicity was the marriage of Miss Margaret Elizabeth Conley and Edgar Nesbit Good, which was solemnized at 6 o'clock Wednesday evening at the Inman Park Methodist church. The impressive religious ceremony was performed by the Rev. B. F. Frazier in the presence of a large assemblage of friends and relatives.

The interior of the church presented a lovely setting for the occasion. The altar was banked high with tropical palms interspersed with tall flower baskets holding pink gladioli. On either side were cathedral candles holding burning white tapers, which cast a soft glow over the lovely scene. The wedding bench was completely covered with white and pink trailing green vines. The sections reserved for the family and close friends were marked by sprays of pink gladioli and connected with white satin ribbons.

Herbert Goode, organist of New York city, rendered an appropriate program of music. Proceeding to the ceremony Miss Santa Mueller played "Adoration" by Bocowski; and Miss Manora Conley sang "At Dawning" by Gadsden and "Until" by Teichmüller. "Love's Old Sweet Song" was played softly on the organ and violin during the ceremony. Mendelssohn's wedding march was used as the processional for the wedding party and the bridal chorus from "Lohengrin" was played as the bride entered the church.

Wedding Attendants.
The bride's attendants were becoming costumes, the colors shading from fresh pink to coral. Each wore large pink felt hats trimmed in velvet and shaded felt flowers and carried arm bouquets of pink and orchid dahlias tied with orchid valley chiffon. Mrs. Elmer L. Stanley, bridesmaid, wore a coral georgette fashioned with a long waist and ruffled skirt and trimmed with touches of pastel embroidery. Miss Martha Frances Slaton, the groom's junior bridesmaid, wore a youth model of rose georgette. The matron of honor, Mrs. J. A. Stewart, wore a charming gown of tea rose georgette fashioned with a long waist and draped skirt, enhanced by a cascade of drapery from the left shoulder. Miss Agnes Conley, sister of the bride, was maid of honor. She entered alone wearing a lovely model of shell pink georgette. Cascade drapery fell from the shoulder and waistline and was held at the right shoulder by a pink taffeta bow.

Little Miss Laura Jane Tiller, flower girl, wore a dainty little ruffled frock of flesh pink georgette. She carried a old-fashioned nosegay of pink roses and garden flowers. The ring bearer was little Billy Good, of Cedar town. He wore a white suit with long trousers and carried the ring in the heart of a big pink dahlia tied with orchid valley chiffon. The groomsmen were Douglas Smith, J. A. Stewart, and Frank G. Binford, of Thomaston. Elmer L. Stanley and Elmer Reynolds were ushers.

Lovely Bride.
The bride presented a picture of youthful loveliness as she entered with her father, John Morgan Conley, who gave her in marriage. They were met at the altar by the groom and his brother, Sam W. Good, of Cedar town, who acted as best man. Her lovely brunette beauty was enhanced by a becoming model of white chiffon and tulle fashioned with a delicate waist and full skirt. The yoke and hem of tulle were stitched in silver and trimmed with dainty hand-made satin flowers. Her white picture hat of neopolitan straw was trimmed with wide satin ribbon, the brim being covered with a fold of tulle, containing dainty sprays of valley lilies which extended slightly over the edge of the brim. Her costume was completed by white satin slippers. She wore a platinum and diamond bar pin, the gift of the groom. She carried a shower bouquet of bride's roses and valley lilies.

Miss Otis Honors
Miss Virginia Griggs.
Miss Elizabeth Otis was hostess Wednesday at a delightful bridge-tee at her home on Sixteenth street in compliment to Miss Virginia Griggs, the guest of Miss Harriet Hasson. Mrs. Robert Otis assisted her daughter in receiving and entertaining. Those invited included about a dozen close friends of the honoree. Miss Catherine Lovett entertained Wednesday evening at a charming bridge party in honor of this attractive visitor.

Mrs. Ward Is Named O. E. S. Secretary.

Mrs. Rowena Ward was appointed Monday as acting grand secretary of the Grand Chapter, O. E. S., by Miss Del Rey Adams, grand matron.

Kirkwood Chapter Meeting Cancelled.

The call meeting of Kirkwood chapter No. 223, O. E. S., Saturday evening, September 10, is cancelled because of the death of Mrs. Wattle Colquhoun, grand secretary of Georgia.

Miss Strickland and Her Guests Honored.

Miss Betty Fleming was hostess at bridge Wednesday evening at her home on Sycamore street, in Decatur, in honor of Miss Sarah Strickland and her house party. Pink roses aided in carrying out the lovely color scheme. The guests were Misses Sarah Strickland, Henrietta Nolan, Thelma Williamson, Martha Johnson, Polly Jones; Messrs. Lewis Sloan, Sam Ferguson, Eugene Daniels, William Fleming, Robert Gillespie and James Morgan.

Miss Hogan Honors Her Bridge Club.

A social event of Saturday was the bridge-tee at which Miss Margaret Hogan was hostess in the Spanish lounge of the Henry Grady hotel, honoring her bridge club. Following the game tea was served on the terrace. The large table had as its center decoration a basket of asters and roses. Those invited were Misses Emmie Fincher, Velma Mitchell, Donna Lee Hale, Kathleen Ashe, Mrs. Joe Kahler, Mrs. James L. Wardlaw, Mrs. R. J. Wade and Miss Hogan.

Miss Neel To Wed Clifton S. Shiflett.

Of cordial interest is the announcement by Professor Charles M. Neel of the engagement of his daughter, Miss Ethel Mallory Neel, of New York, formerly of Atlanta, to Clifton Shepherd Shiflett, of Virginia. Miss Neel, who studied voice in Italy under the famous conductor, Podesti, will be remembered in Atlanta as conducting Caruso and Farrington with the Metropolitan opera. Miss Neel's father is well known as one of the foremost educators of the state. She belongs to a number of the oldest southern families, being related to the Warrens and Randolphs, of Virginia, and the Pringles, of Charleston, a niece of the late Governor and Mrs. W. J. Northen.

The wedding will take place in September in New York, where Miss Neel is living at 30 West 73rd street. After the marriage, the bride will go on a concert tour of the western states.

Motherhood Made Easier

Doctor's Discovery Relieves Much Unnecessary Suffering

THOUSANDS of women, for over three generations, have praised Mother's Friend for its wonderful help during expectancy and at child-birth.

"I will tell all my friends about Mother's Friend," writes Mrs. Ben Abraham, Princeton, Ill. "It is a wonderful help all through the period."

Mother's Friend relieves the tension on muscles and tissues as month follows month. Finally, it makes child-birth a joy!

You owe it to yourself to give Mother's Friend a trial. Start tonight—the sooner the better and write for free booklet on "Things to Know Before Baby Comes" (sent in plain envelope). *Mother's Friend is sold by all drug stores. Randolph Regulator Co., Desk 23, Atlanta, Ga.

Miss Ethel Ware has returned to the city after a summer at Columbia

For Men Who
Get Up Cross
In the Morning

Lots of men are like that. Won't speak a pleasant word—if indeed they'll speak to you at all—until they've had their breakfast. No matter what you say to them, it's the wrong thing.

The way to treat men like that is not with conversation. They are the men who, like most Americans, live on their nerves. They work too hard. They don't get enough sleep. And when they have to get up in the morning, they are not completely rested. So they're cross.

What they need is a good hot drink that will refresh them—that will taste delicious and satisfying without setting their nerves on edge—that will give them a comfortable sense of well-being—that will put them in harmony with themselves, with you, and with the rest of the world—and that will make them fit for the strenuous day before them.

Any one of the three perfect RIDGWAYS blends can do this. Try it! Compare its effects with those of any other drink. You'll notice the difference in one day. You'll be calmer, happier, and easier to live with. And you'll love the delicious, full-bodied flavor.

"The First Thing You Think of—RIDGWAYS Tea"

THREE perfect blends to meet all demands: RIDGWAYS "Her Majesty's Blend"—originally blended for the special and private use of Queen Victoria of Great Britain.

RIDGWAYS "Gold Label" 100% Genuine Orange Pekoe Tea—The connoisseur's favorite—a blend of the world's finest flowery Orange Pekoe teas.

RIDGWAYS "Orange Label" Tea—a fine, mild India-Ceylon tea—the most popular blend in the United States—(adv.)

Mrs. Bartlett Is Hostess to Members Of Bridge Club

Among the lovely social affairs of Wednesday was the bridge-luncheon at which Mrs. O. D. Bartlett was hostess at her home on Peachtree circle, honoring the members of her bridge club. Luncheon was served at 1 o'clock from a beautifully appointed table holding in the center a graceful silver basket filled with asters, dahlias and roses, displaying to lovely advantage all the Dresden shades. Following luncheon the guests enjoyed a game of bridge.

The members of the club include a group of young matrons who formerly lived in Cedar town and who meet twice each month for luncheon and a game of bridge. Covers were placed for Mrs. Spencer Kirkland, Mrs. Andrew Hester, Mrs. Wallace Brumby, Mrs. William England, Mrs. Hal Drake, Mrs. E. K. Bryan, Mrs. David Baer and Mrs. Bartlett.

At the North Avenue Presbyterian school at its opening September 8.

Misses Dorothy and Emily Alexander, who have been the guests of Mrs. Sidney D. Smith, have returned to their home in Forsyth.

Mrs. Arthur Collington, with her daughter, Misses Lulah and Katherine Codrington, formerly of Atlanta but now of Miami, are visiting in the city. They have opened their home, 179 Westminster drive, where they will spend two weeks.

Mrs. Anne Bates Walsh and little daughter, Elizabeth Winship Walsh, are at Wesley Memorial hospital, where they underwent a tonsil operation last Monday.

Mrs. William Collin Matthews has returned from a trip to Cuba and New York. While in New York, Mrs. Matthews was the guest of Mrs. Wallace P. Zachary who was formerly Miss Mary Matthews, of Atlanta.

Miss Elizabeth Savage, of Gadsden, Ala., is the guest of her grandparents, Mr. and Mrs. Jeff Burnett, at their home in Ansley Park.

Mrs. Pasco Palmer, of Valdosta, who has been visiting in the city for several weeks leaves for her home the latter part of the week.

Mrs. Horace Sturdivant, of Patrick Springs, Va., and Misses Mary and Annie Laurie Walsh, of Augusta, are the guests of Miss Elizabeth Nixon.

Mrs. Howard E. Newton, who has been abroad several weeks, is in Paris and will sail for home the middle of September.

Mrs. H. E. McWhorter and her son, Herman Gleesling, have returned from two weeks spent at Fort Wayne, Ind., Toledo and Cleveland, Ohio.

Mrs. Joseph M. Tull Is Hostess at Tea.

Mrs. Joseph M. Tull was hostess informally at tea Wednesday at her home in the Ponce de Leon apartments, honoring Mrs. Charles Glover, of Tampa, Fla., the guest of Mrs. Thornwell Jacobs.

Mrs. Joel H. Casady Entertains at Fort.

Mrs. Joel H. Casady entertains at a bridge tea at 2 o'clock Wednesday, September 14, at her home in Ft. McPherson, honoring Mrs. W. L. Tyler and Mrs. C. C. Gains, of Ft. McPherson. A number of the army contingent have been invited for this affair.

Dolls From Thirty Countries Honored at Reception Today

Mrs. Potter-Spiker, who spent the summer touring the countries of Europe, will entertain with a unique reception to children on Saturday afternoon between the hours of 3 and 6 o'clock, at her home 1406 West Peachtree street, N. W.

The honored guests are 20 dolls collected from the countries visited by Mrs. Potter-Spiker. There are dolls from Africa to Sweden, from Spain to Italy, from Germany and France to the British Isles. The little miss from Holland, the French and Spanish

beauties, the odd Egyptian and the queer boy from Morocco are perhaps the most fascinating. There is an interesting story Mrs. Spiker tells about how she persuaded these 20 toy folks to leave their native lands to become the property of the beautiful little granddaughter, Betty Spiker.

These honored guests are all dressed in the costumes of the country—complete in every little detail. The children who call to meet this rare collection from far across the seas will also be shown the quaint little boxes and hampers in which the trip was made.

There is the daintiest little pink doll all fluffed in downy pink feathers, so tiny one may wear it on the shoulder. And really this is one of the novelty styles Mrs. Spiker brought back from Paris.

Every little girl and every big girl who loves dolls and wants to see this beautiful collection, is invited to the dolls' reception on Saturday afternoon. Mrs. Potter-Spiker will be assisted in receiving by little Miss Betty Spiker, the daughter of Mr. and Mrs. Pierpont Spiker. The young ladies of the Potter-Spiker dancing school will preside over the refreshment tables.

Yaarab Temple Gives Dance Series.

Yaarab temple has selected the Druid Hills Golf club for their fall dances, and have arranged for a series of five entertainments beginning October 7. Potentate Thomas C. Law requests that all members of Yaarab temple assist the entertainment committee in making them a success. The dance on October 7 will be followed by a "fancy dress Halloween ball" October 31.

Alpha Gamma Delta Elects Officers.

The Atlanta alumnae chapter of Alpha Gamma Delta sorority held a meeting Saturday afternoon, September 3, at the home of Mrs. C. M. Wood on Linwood avenue.

The following officers were elected for the coming year: President, Miss Agnes Allen; vice president, Miss Sophie Horne; secretary, Mrs. V. L. Blair; treasurer, Miss Clara Bright; editor, Miss Laurie Linthicum.

Mrs. Bun Wylie Makes Request.

Mrs. Bun Wylie, state regent, Georgia Society Daughters of American Colonists, requests the Georgia Society of the American Colonists to be present at the home of Mrs. Charles A. Davis, past state regent, on Thursday afternoon at 3:30 o'clock, 1371 Peachtree street to pay tribute to the memory of Mrs. Davis.

Miss Katherine Lovett Honor Miss Griggs.

Miss Katherine Lovett, entertained at bridge Wednesday evening honoring Miss Virginia Griggs of Jacksonville, Fla., the guest of Miss Harriet Hanson, on Palisades road.

Agnes Lee Chapter To Meet Friday.

Agnes Lee chapter, U. D. C., will meet in Decatur Friday afternoon at 3 o'clock. The speaker for the afternoon will be Dr. A. I. Branham, who will speak on "Admiral Semmes and Matthew F. Maury." Mrs. Russell Harrison will sing a group of songs, accompanied by Mrs. Lewis Johnson. Miss Mary Sayward will give a reading and the committee in charge of the social hour are: chairman, Mrs. John Montgomery; Mrs. W. C. McFain; Mrs. John Ridley; Miss Ida Hamilton; Mrs. P. L. Weckes; Mrs. A. L. Brooks; Mrs. J. R. Davis; Mrs. T. C. Burford; Mrs. Raymond Rashbury; Mrs. A. M. Sewell and Mrs. T. M. Griffin.

This is the first of all meetings of the chapter and all members are urged to be present to discuss and assist in planning activities for the next few months.

DR. BROWN TO ADDRESS SUNDAY SCHOOL MEET

Dr. Arlo Ayres Brown, noted author, and president of the University of Chattanooga, will be the principal speaker at the Sunday school conference which will be held at Druid Hills Methodist church Sunday, September 18, according to an announcement Wednesday by the Rev. Homer Thompson, superintendent Sunday School board.

Dr. Brown, who has won national reputation as a Sunday school worker, will speak twice during the day. At 11 o'clock his subject will be "The Educational Task of the Church," and in the afternoon at 2 o'clock he will speak on "What Ails Our Youth."

The program for the day will be: 11 a. m.—Address by Dr. Brown; 2 p. m.—Devotional, by Rev. Marvin Franklin, pastor of the Park Street Methodist church; address by Dr. Brown: "Promotion Day," Mrs. F. A. Johnson; "Rural Work," Rev. J. C. Adams.

The departmental meetings will follow and the leaders of the discussions will be: cradle roll, Miss Mary Lemmon; beginner, Mrs. R. K. Babington; primary, Mrs. A. H. Huchings; intermediate, Mrs. E. H. Harris; young people, John F. Cone; adult, Mrs. J. C. Oliver; general officers, Dr. Joel Hunter.

STEGALL HEARING ON CLEMENCY PLEA SLATED FOR TODAY

At the request of Attorney William Schley Howard, who represents E. C. Stegall, former Atlanta policeman now serving a 15-year term following his conviction on a manslaughter charge, a petition for clemency for Stegall scheduled for a hearing before the state parole commission Wednesday, was postponed for consideration until Thursday morning at 9 o'clock.

Stegall was convicted following the killing of W. H. Hames, private detective of Atlanta. A petition signed by a large number of citizens asking that Stegall be paroled or pardoned has been filed with the commission. Opposition to the granting of clemency will be directed by Solicitor General John A. Boykin.

GRAND JURY MEETING CALLED FOR OCTOBER 3

Judge Samuel H. Sibley, of the northern district of Georgia, United States court, has called a meeting of a new federal grand jury for October 3.

A large number of cases are on the docket, consisting largely of prohibition and narcotic violations, according to Clint Hager, United States district attorney.

VAN PAASSEN PREPARES ZIONIST MEET STORIES

Pierre Van Paassen, author of the "World's Window," and widely known in Atlanta for his work on The Constitution staff, is now preparing a series of articles on the Fifteenth Zionist congress at Basle, it was learned Wednesday by Dr. Leo J. Frachtenberg, executive director of the United Palestine appeal.

The articles are to appear in The New Palestine, official organ of the Zionist organization of America. Mr. Van Paassen is now in Europe as the foreign correspondent of the New York Evening World. The Constitution staff, which has been returned from a lengthy visit to Palestine.

"Mr. Van Paassen is well known to the Jews of America for the keen interest he has manifested in Jewish activities, although a gentile," Dr. Frachtenberg said. "The noted journalist has been particularly interested in the Zionist movement, being attracted by the romance of laying a foundation for a new national life. His articles in his daily column in The Constitution frequently have been followed with close attention by the Jews of this country," Dr. Frachtenberg stated.

Memorial Victory Seen in Election Of Mrs. Quinby

Mrs. L. D. T. Quinby, former charter member of the Atlanta chapter, United Daughters of the Confederacy, who recently withdrew from that organization, claiming she was denied the right to speak in behalf of the Stone Mountain Confederate memorial, Wednesday authorized a statement to the effect that her election as president of the Fulton chapter, U. D. C., was in no sense a personal compliment but a victory for the memorial.

The election took place Tuesday at the annual meeting of the Fulton chapter, which Mrs. Quinby joined subsequent to retiring from the Atlanta chapter.

Mrs. Quinby is a daughter of the late Colonel W. A. Hemphill, one of the founders of The Constitution and a prominent Confederate soldier, who fired the first shot in the battle of Gettysburg.

Other officers elected at the annual meeting of Fulton chapter are: Mrs. J. A. Wise, first vice president; Mrs. John R. McConnell, second vice president; Miss Cleopatra Neal, secretary; Miss Martha E. Anderson, treasurer; Mrs. W. S. Irvine, historian and Mrs. Sue L. Palmer, registrar.

Delegates elected to the convention at Covington are: E. B. Williams, Mrs. H. D. Andrew and Mrs. Hoke H. Davis. The alternates are: Mrs. C. L. Anderson, Mrs. W. D. Lomax, Mrs. J. W. Kenley and Mrs. Patrick Bray. The influence of the chapter will be thrown in favor of the Stone Mountain Memorial at the coming state convention, the newly elected president stated.

Central Night School to Open Monday Evening

Men and women, as well as young folk, who work throughout the day, are organized by the city to improve their education through the sessions of the Central Night school, which opens next Monday night, it is announced by Superintendent Willis A. Sutton, of the public school system.

Registration for the Central Night school, conducted as a branch of the public school system, is now open and will continue through Friday, at the Commercial High school building, 138 South Pryor street. The school will be conducted from 6:30 to 9 o'clock on Monday, Tuesday, Wednesday and Thursday evenings. There will be no fees and the school is open to white students of all ages.

Studies which will help students in their work will be stressed. These include mathematics, business English, typewriting, shorthand, bookkeeping and various other courses.

For working students who can spare short periods during the day, the Opportunity school will also open Monday, at the same address. This school covers practically the same courses of study, and its hours are from 8:30 to 5 o'clock daily. Its pupils, of any age, may attend for recreation at luncheon time, in the early forenoon, or late in the afternoon. The attendance last year was about 1,000 and the number of pupils ranged from 14 to 65 years.

2 GIRLS INJURED AS TRUCK, AUTO MEET IN CRASH

Jane and Betty Dereth, of Newman avenue, East Point, were cut and bruised about the face when an automobile in which they were riding with M. J. B. Ellington, of 302 Newman avenue, collided with a truck driven by Robert Askew, of 278 Chapel street, Wednesday at Lee and White streets.

Askew's truck was making a left turn from north on Lee street into White when struck by Mrs. Ellington's machine, according to the report of Call Officers W. A. Goode and D. B. Andrews. Cases were made against both drivers.

Clifton Hall, 31-2, suffered abrasions of the cheek and ankle when hit by an automobile. He lives at 371 Flat Shoals avenue and was treated at Grady hospital.

PEACHTREE GARDENS HEARING CONTINUED

On demand for a jury trial, the bankruptcy hearing of Wieca Country club, operating several months as Peachtree Gardens, a night club, was continued until September 16 on an order signed Wednesday by Federal Judge Samuel H. Sibley.

An involuntary petition was filed last August by F. R. B. Renshaw and others, while an answer was filed August 16 by A. W. White, attorney for the club.

The petitioners were represented by Attorney Granger Hansell.

INCOME TAX DETAILS CLEARED TO DEPUTIES

Manifold complexities of the income tax were made clear to 18 deputy collectors of internal revenue, who Wednesday completed two days of intensive training in auditing and investigation of individual returns.

J. T. Rose, collector of internal revenue for charge of the instruction work, which has previously been from Washington. The school was held at the Federal building.

Allen To Deed Historic Fort Mountain To State

A deed to the historic fort and approximately 50 acres of land on the summit of Fort Mountain, in Murray county, will be deeded to the state of Georgia by Ivan Allen, prominent Atlanta business man, he announced Tuesday.

The fort dates back to DeSoto's visit to north Georgia in 1540 and the action of Mr. Allen in deeding the property to the state was to preserve the fort.

Exactly what race of people built the ancient fortress with a 1,500-foot barrier circling it still remains a mystery which Mr. Allen is attempting to solve with the aid of scientists. He is prepared to visit the Fort mountain tract, which he recently purchased.

An expedition to the fort, conducted by Warren K. Moorehead, Andover, Mass., archaeologist, failed to reveal any of the Indian relics usually found in places inhabited by that race, according to Mr. Allen, and leads him to believe the theory that the fort was built by a strange race of white men.

Some light on this race of whites, which was supposed to have preceded the Indians, was thrown upon the question in a recent report of the Smithsonian institution. It reads, in part: "There was a dim but persisting tradition among the Cherokee Indians of a strange white race preceding the Cherokees in this country, whom they drove out."

"The Indians called them the 'moon-eyed' people, since they could not see in the daytime. They were supposed to have been an albino race. The tradition goes that they made a treaty with the Indians to leave the country if allowed to go in peace."

ALFRED WOODCOCK, FORMER ATLANTAN, PASSES IN FLORIDA

News was received in Atlanta Wednesday of the death Sunday night at Daytona Beach, Florida, of Alfred Woodcock, for many years a resident of Atlanta, but for the past five years of the Florida city.

Mr. Woodcock was a native of Manchester, England, coming to the United States when a young boy. With his family he came to Atlanta from Florida in 1895. He had many friends in this city.

In addition to his widow, Mr. Woodcock is survived by two sons, Frederick Arthur Woodcock, of Asheville, N. C., and Alfred Woodcock, Jr., who is a student at Amherst college, Amherst, Mass.; one daughter, Mrs. Malvern Coxwell, of Daytona Beach, Fla., and a sister, Mrs. Harriet Somerville, of Atlanta. Mrs. P. Ozburn and Mrs. H. W. Cline, of Atlanta, are nieces of the deceased.

The body will be brought to Atlanta and interment will be made in the West View cemetery. Funeral arrangements will be announced later.

FUNERAL RITES FOR MRS. DAVIS SET FOR TODAY

Funeral services for Mrs. Charles A. Davis, beloved Atlanta woman, who died at her residence, 1571 Peachtree street, Tuesday morning after a protracted illness, will be held at 3:30 o'clock this afternoon from the residence. The Rev. Luther Rice Christy will officiate and interment will be in West View cemetery.

For 30 years a leader in the social, civic and religious affairs of Atlanta, Mrs. Davis was a member of the United Daughters of the Confederacy, the Atlanta chapter of the Daughters of the American Revolution, the Ladies' Memorial association and the Ponce de Leon Baptist church.

Pallbearers will be M. M. Emmert, E. A. Holbrook, Rutherford L. Scomb, Eugene M. Mitchell, Wade H. Davis and Mitchell King. H. M. Patterson and Son, funeral directors, in charge.

LAST RITES HELD FOR YOUNG BROOKS, ROCKET VICTIM

Funeral services for Merrill Brooks, 15-year-old son of Mr. and Mrs. Walter T. Brooks, of 107 Park place, Oakhurst, who was fatally injured when struck by a descending sky rocket at the Labor day fireworks display in Grant park, were held Wednesday afternoon from the Pott Memorial church, his own Boy Scout troop acting as honorary escort. The Rev. W. M. Twigg officiated and interment was in the DeCAT cemetery.

Merrill attended the fireworks exhibition with his parents, but had left them to obtain a better view, it is believed. Merrill was a member of the Boy Scout troop of Kirkwood. It is thought he was aiding officials to keep back the spectators when the projectile struck him in the forehead. Rushed to Grady hospital, he died there within an hour without regaining consciousness.

EAST LAKE SCHOOL WILL OPEN MONDAY

The East Lake city school will open its doors for the ensuing school year Monday morning, September 12, at 8:20 o'clock, according to Mrs. Eva Richardson, principal. The school will be holding classes here until taken over, next January 1, by the city of Atlanta, she said. There are 200 pupils in the six grades.

SLAYER'S PISTOLS FOUND IN SEWER

(By Leased Wire to The Constitution and The Chicago Tribune.) The two revolvers which Charles M. Bernstein, Baltimore merchant, opened fire in the law office of Bijur, Heris & Steinberg, 15 West Forty-fourth street, yesterday afternoon, causing the death of four persons, were recovered by police late this afternoon from a sewer at John and Nassau streets.

The information which led to the recovery of the revolvers was supplied to the police by two uncles of Bernstein, who were with him at the time of the shooting Tuesday night and who arranged for his surrender to the police just before midnight Tuesday in a Washington Heights police station.

Four Now Dead. The number of the Bernstein victims who died in the outbreak of their lives was increased to four this morning when Philip McGroarty, former state manager for Jane Cowl and her "Rosa to Roma" campaign, died in Bellevue hospital of a fractured spine. McGroarty was walking through Forty-fourth street when the body of Victor J. Steinberg, member of the firm of Bijur, Heris & Steinberg, hurled from a ninth story window and struck McGroarty.

Steinberg, who was in the room with Bernstein when the shooting began, was killed by his fall, an autopsy today definitely established. He was dead when picked up by the street sweeper, and died because of the condition of his body, the police were unable to determine last night whether he had been shot before he fell.

Assistant Medical Examiner Vance reported after the autopsy today, however, that he had been unable to find bullet wounds in Steinberg's body.

Mystery Deepened. The assistant medical examiner's report served to deepen the mystery of the slaying. Steinberg fell from the ninth floor. When police arrived at the office yesterday afternoon they found the window open and the body of the victim on the sidewalk. To jump out of the window or get out on the window ledge to escape bullets, Steinberg, they pointed out, would have to squirm through this narrow space.

The most plausible explanation appeared to be one advanced today by members of his office force—that he was sitting with his chair tilted back in front of the window when Bernstein began firing and that, in his startled attempt to jump out of range of the bullets, his chair occurred and he went backward out of the window.

The other two victims of Bernstein's gunfire were Charles Herskovitz, real estate broker, and Henry C. Cohen, Herskovitz's lawyer. Both died of bullet wounds. Herskovitz a few minutes after he was shot and after he had run into the corridor in a futile pursuit of Bernstein, and Cohen several hours later at Bellevue hospital.

The little Baltimore dress goods merchant who became a two-gun band man at a business conference, chose murder to bankruptcy.

The real estate deal, over which Bernstein became enraged and ran amuck with a gun in each hand, meant a loss of perhaps \$100,000 in options he held on New York properties as well as commissions amounting to \$75,000 and \$25,000. The commissions were due Herskovitz.

FUNERAL RITES FOR MRS. BOSTROM SET FOR TODAY

Funeral rites for Mrs. E. A. Bostrom, 65, beloved resident of Atlanta, who died Tuesday at the home, 496 Jacob street, N. E., will be held at 1:30 o'clock this afternoon at the home. The body will be taken to Newnan for interment.

Mrs. Bostrom was a devout member of the Trinity Methodist church and long active in church work here. Prior to her marriage to Newnan was Miss Ella Jones, niece of the late Oliver Jones, pioneer Atlantian. Surviving her is a daughter, Mrs. W. H. Letour, of Atlanta; a son, Robert E. Bostrom, of Montreal, Canada, and a granddaughter, Miss Mary Bostrom, also of Montreal.

AVONDALE BAPTIST CONFERENCE VOTES TO KEEP MONCRIEF

The congregation of the Avondale Baptist church, it was announced Wednesday, voted unanimously not to accept the resignation of the pastor, Rev. Adiel Jarratt Moncrief, Jr. The action was taken following the presentation of the resignation by Mr. Moncrief at a church conference last Sunday afternoon and the congregation was instructed to keep him. The school will be held at the church. Mr. Moncrief sought release from the duties at the church to enter the Southern Baptist Theological seminary, real estate broker, and Henry C. Cohen, Herskovitz's lawyer. Both died of bullet wounds. Herskovitz a few minutes after he was shot and after he had run into the corridor in a futile pursuit of Bernstein, and Cohen several hours later at Bellevue hospital.

The little Baltimore dress goods merchant who became a two-gun band man at a business conference, chose murder to bankruptcy.

The real estate deal, over which Bernstein became enraged and ran amuck with a gun in each hand, meant a loss of perhaps \$100,000 in options he held on New York properties as well as commissions amounting to \$75,000 and \$25,000. The commissions were due Herskovitz.

EVANGELIST ADDS MANY TO A. M. E. FLOCK

The Rev. S. D. McDuffee, of New York, evangelist, spoke Tuesday night at Big Bethel A. M. E. church to inspire his 2,000 persons. His text, "I Will Arise and Go to My Father," stirred the congregation and many new members were added to the church.

The Rev. J. L. Butler, pastor, paid tribute to the many people who have responded to the call of Dr. McDuffee. No. 1 and No. 2 choirs of Big Bethel furnished the singing, including "I Want to Be a Christian in My Heart." The revival will continue through next week and all are invited to attend the services.

The Lazy Delightful Way to NEW YORK or BOSTON

Reduced Round Trips from Atlanta To NEW YORK \$53.13 To BOSTON \$66.13

These glorious days of restful luxury in a floating country club. Pleasant companionship of fellow "members" you meet with the delightful informality proper to ocean travel. Tempting meals, included in the price of the ticket. Cabin luxuries with beds and private baths at reasonable extra cost.

The bracing sea air that makes you hungry as a hunter and sleep like a top. Three days of rest, deck chairs, swimming, sunbathing, and the best of all—just "live" as you will. One day more, if you so desire.

Then the soothing lights of Broadway, the new shows, the great big blossoming out with summer things, Fifth Avenue, or the quiet old mansions of Bunker Hill, Paul Revere and Longfellow.

The best part of a European trip—the voyage—at a fraction of the cost. A vacation with the Seaboard Line is a vacation. The cost and pleasure of the trip are the very best, not after you have reached your destination.

For full information apply at any local railroad ticket office or write.

Man Badly Hurt In Riot Near Adventist Tent Now in Session

Assailed by a crowd of rock throwing youths Wednesday night at the Decker avenue camp ground of the Seventh Day Adventists while attempting to protect a boy from the attack, Luther Webb, 28, who lives near Grant park, was struck and seriously injured, according to a report to county police. Webb was rushed to Grady hospital in an ambulance, physicians fearing brain concussion or a fracture from a blow on the temple.

Webb, who was camping at the tent meeting with his family, intervened when the youths threw rocks at Meritt Van Slyke, 13, of Jacksonville, Fla., and in turn was jumped on by the gang, it was said. Witnesses declared that Webb was struck in the right temple with a rock, and seemed to be in a serious condition as a result of the blow. He also struck in the abdomen and on other parts of his body with rocks and fists, it was said.

Young Van Slyke was seated on a bench near the tent when the youths, who were strangers to the campers, appeared and began throwing rocks, it was reported. Several of the rocks struck Van Slyke, and he was rushed to Grady hospital, it was said. The youths, who were strangers to the campers, appeared and began throwing rocks, it was reported. Several of the rocks struck Van Slyke, and he was rushed to Grady hospital, it was said.

After striking Webb, the gang ran in the direction of Stewart avenue. County police responded to the call and began a search for the alleged ruffians.

BRUNSWICK OFFICIALS PLAN LANDING FIELD

Brunswick, Ga., September 7.—(AP) Provision of an airport to take care of the Detroit-Florida passenger service, which is reported to have this city under consideration as a stop point, is occupying city officials' attention now.

Tentative plans call for the completion of a field by the time service is instituted, November 1.

400 Parole Pleas Before U.S. Board

Consideration of more than 400 applications for parole filed by inmates of the Atlanta federal prison at the regular September meeting of the parole board will be completed today.

Earl Carroll, famous theatrical producer of New York, serving a term for perjury, will not be among those brought before that body, it was announced Wednesday night.

A new rule of the department of justice prevented Carroll from being listed as "eligible," it was explained by Warden John W. Snook, who has just returned to Atlanta from a 30-day vacation. The rule prevents consideration of any application unless one-third of the sentence has already been served unless the eligible date falls in the current month in which the board meets.

The board visited the honor farm where Carroll is at work Wednesday afternoon and took 77 applications for executive clemency under advisement. About 150 cases were discussed at the Wednesday morning meeting. Names of those considered and the recommendations of the body are withheld from publication and guarded with strictest secrecy.

Funeral Notices

LASSITER—Mr. G. H. Lassiter died September 7 in his 88th year. He is survived by his wife, Mrs. G. H. Lassiter; one son, R. L.
